The Political Thought Of American Statesmen Selected Writings And Speeches:

The Political Thought of American Statesmen Morton J. Frisch, Richard G. Stevens, 1974 **the political thought of American statesman: selected writings and speeches**, ed Morton J. Frisch, Richard G. Stevens, *American Political Thought* Morton J. Frisch, Richard G. Stevens, The Second World War was a crisis not just for America but for the whole of Western Civilization and in the wake of that war a new crisis arose which came to be called the Cold War Just when that gave the appearance of being resolved the world reached a new juncture a new crisis which Samuel P Huntington dubbed the clash of civilizations The statesmen having political responsibility in confronting the first three crises in America s history came as close to philosophic grasp of the problems of liberal democracy as one could demand from those embroiled in the active resolution of events Their reflection of political philosophy in the full sense informed their actions *Selected Writings and Speeches of Alexander Hamilton* Alexander Hamilton, Morton J. Frisch, 1985 To find more information about Rowman and Littlefield titles please visit www.rowmanlittlefield.com **The Political Thought of American Statesmen** Morton J. Frisch, Richard G. Stevens, 1973 [American Political Thought](#) Morton Grodzins, 2017-07-05 This book focuses on the political thought of American statesmen These statesmen have had consistent and comprehensive views of the good of the country and their actions have been informed by those views The editors argue that political life in America has been punctuated by three great crises in its history the crisis of the Founding the crisis of the House Divided and the crisis of the Great Depression The Second World War was a crisis not just for America but for the whole of Western Civilization and in the wake of that war a new crisis arose which came to be called the Cold War Just when that gave the appearance of being resolved the world reached a new juncture a new crisis which Samuel P Huntington dubbed the clash of civilizations The statesmen having political responsibility in confronting the first three crises in America s history came as close to philosophic grasp of the problems of liberal democracy as one could demand from those embroiled in the active resolution of events Their reflection of political philosophy in the full sense informed their actions Since we cannot confidently explain the future Aristotle warned us to call no man happy while he still lives Thus the book in its third edition keeps to its settled pattern of dealing with settled matters The preface to the third edition confronts the three later crises and to the extent consistent with truth attempts to relate them to the first three [American Statesmanship](#) Joseph R. Fornieri, Kenneth L. Deutsch, Sean D. Sutton, 2021-11-01 This book much needed in our public discourse examines some of the most significant political leaders in American history With an eye on the elusive qualities of political greatness this anthology considers the principles and practices of diverse political leaders who influenced the founding and development of the American experiment in self government Providing both breadth and depth this work is a virtual who s who from the founding to modern times From George Washington to Frederick Douglass and Elizabeth Cady Stanton to FDR and Ronald Reagan the book s twenty six chapters are thematically organized to include a brief biography of each subject his or her historical context and the core

principles and policies that led to political success or failure A final chapter considers the rhetorical legacy of Bill Clinton George W Bush Barack Obama and Donald Trump Nearly all readers agree that statesmanship makes a crucial difference in the life of a nation and its example is sorely needed in America today These concise portraits will appeal to experts as well as history buffs The volume is ideal for leadership and political science classroom use in conjunction with primary sources Contributors Kenneth L Deutsch Gary L Gregg II David Tucker Sean D Sutton Bruce P Frohnen Stephanie P Newbold Phillip G Henderson Michael P Federici Troy L Kickler Johnathan O Neill H Lee Cheek Jr Carey Roberts Hans Schmeisser Joseph R Fornieri Peter C Myers Emily Krichbaum Natalie Taylor Jean M Yarbrough Christopher Burkett Will Morrissey Elizabeth Edwards Spalding Patrick J Garrity Giorgi Areshidze William J Atto David B Frisk Mark Blitz Jeffrey Crouch and Mark J Rozell
