The Politics Of Design In French Colonial Urbanism:

The Politics of Design in French Colonial Urbanism Gwendolyn Wright, 1991 Politics and culture are at once semi autonomous and intertwined Nowhere is this more revealingly illustrated than in urban design a field that encompasses architecture and social life traditions and modernization Here aesthetic goals and political intentions meet sometimes in collaboration sometimes in conflict Here the formal qualities of art confront the complexities of history When urban design policies are implemented they reveal underlying aesthetic cultural and political dilemmas with startling clarity Gwendolyn Wright focuses on three French colonies Indochina Morocco and Madagascar that were the most discussed most often photographed and most admired showpieces of the French empire in the early twentieth century She explores how urban policy and design fit into the French colonial policy of association a strategy that accepted even encouraged cultural differences while it promoted modern urban improvements that would foster economic development for Western investors Wright shows how these colonial cities evolved tracing the distinctive nature of each locale under French imperialism She also relates these cities to the larger category of French architecture and urbanism showing how consistently the French tried to resolve certain stylistic and policy problems they faced at home and abroad With the advice of architects and sociologists art historians and geographers colonial administrators sought to exert greater control over such matters as family life and working conditions industrial growth and cultural memory The issues Wright confronts the potent implications of traditional norms cultural continuity modernization and radical urban experiments still challenge us today

modernization and radical urban experiments still challenge us today *Decolonization and African Society* Frederick Cooper, 1996-08-28 This detailed and authoritative volume changes our conceptions of imperial and African history Frederick Cooper gathers a vast range of archival sources in French and English to achieve a truly comparative study of colonial policy toward the recruitment control and institutionalization of African labor forces from the mid 1930s when the labor question was first posed to the late 1950s when decolonization was well under way Professor Cooper explores colonial conceptions of the African worker and shows how African trade union and political leaders used the new language of social change to claim equality and a share of power This helped to persuade European officials that the modern Africa they imagined was unaffordable Britain and France could not reshape African society As they left the continent the question was how they had affected the ways in which Africans could reorganize society themselves *A Critical History of Contemporary Architecture* Dr Elie G Haddad, Asst Prof David Rifkind, Ms Sarah Deyong, 2014-03-28 This book provides a comprehensive critical overview of the developments in architecture from 1960 to 2010 The first section provides a presentation of major movements in architecture after 1960 and the second a geographic survey that covers a wide range of territories around the world This book not only reflects the different perspectives of its various authors but also charts a middle course between the aesthetic histories that examine architecture solely in terms of its formal aspects and the more ideological histories that subject it to a critique that often skirts the discussion of its formal aspects Facts on the Ground Nadia Abu El-Haj, 2008-06-24 Archaeology in Israel is truly a national obsession a practice through which national identity and national rights have long been asserted But how and why did archaeology emerge as such a pervasive force there How can the practices of archaeology help answer those questions In this stirring book Nadia Abu El Haj addresses these questions and specifies for the first time the relationship between national ideology colonial settlement and the production of historical knowledge She analyzes particular instances of history artifacts and landscapes in the making to show how archaeology helped not only to legitimize cultural and political visions but far more powerfully to reshape them Moreover she places Israeli archaeology in the context of the broader discipline to determine what unites the field across its disparate local traditions and locations Boldly uncovering an Israel in which science and politics are mutually constituted this book shows the ongoing role that archaeology plays in defining the past present and future of Palestine and Israel *Interlopers of Empire* Andrew Arsan, 2014-01-06 This work is the first comprehensive history of the Lebanese migrant communities of colonial French West Africa a vast expanse that covered present day Senegal C te d Ivoire Mali Guinea Benin and Mauritania Where others have concentrated on the commercial activities of these migrants casting them as archetypal middlemen this work reconstructs not just their economic strategies but also their social and political lives Moreover it examines the fraught responses of colonial Frenchmen to the unsettling presence of these interlopers of empire responses which with their echoes of metropolitan racism helped to shape the ways in which Lebanese migrants represented themselves and justified their place

in West Africa This is a work which attempts not just to reshape broader understandings of diasporic life of Janus like existences lived in transit between distant locales and dependent on the constant to and fro of people news and goods but also to challenge the way we think about empires and the relations between their constituent territories and diverse inhabitants The Birth of Vietnamese Political Journalism Philippe M.F. Peycam,2012-05-01 Philippe M F Peycam completes the first ever English language study of Vietnam's emerging political press and its resistance to colonialism Published in the decade that preceded the Communist Party's founding this journalistic phenomenon established a space for public political contestation that fundamentally changed Vietnamese attitudes and the outlook of Southeast Asia Peycam directly links Saigon's colonial urbanization to the creation of new modes of individual and collective political agency To better justify their presence French colonialists implemented a peculiar brand of republican imperialism to encourage the development of a highly controlled print capitalism Yet the Vietnamese made clever use of this new form of political expression subverting colonial discourse and putting French rulers on the defensive while simultaneously stoking Vietnamese aspirations for autonomy Peycam specifically considers the work of Western educated Vietnamese journalists who in their legal writings called attention to the politics of French rule Peycam rejects the notion that Communist and nationalist ideologies changed the minds of alienated Vietnamese during this period Rather he credits colonial urban modernity with shaping the Vietnamese activist journalist and the role of the French even at their most coercive along with the modern public Vietnamese intellectual and his responsibility toward the group Countering common research on anticolonial nationalism and its assumptions of ethno cultural homogeneity Peycam follows the merging of French republican and anarchist traditions with neo Confucian Vietnamese behavior giving rise to modern Vietnamese public activism its autonomy and its contradictory aspirations Interweaving biography with archival newspaper and French police sources he writes from within these journalists changing political consciousness and their shifting perception of social roles The Oxford Handbook of Cities in World History Peter Clark,2013-02-14 In 2008 for the first time the majority of the planet's inhabitants lived in cities and towns Becoming globally urban has been one of mankind's greatest collective achievements over time Written by leading scholar this is the first detailed survey of the world's cities and towns from ancient times to the present day **Prostitution, Race and Politics** Philippa Levine,2013-01-11 In addition to shouldering the blame for the increasing incidence of venereal disease among sailors and soldiers prostitutes throughout the British Empire also bore the burden of the contagious diseases ordinances that the British government passed By studying how British authorities enforced these laws in four colonial sites between the 1860s and the end of the First World War Philippa Levine reveals how myths and prejudices about the sexual practices of colonized peoples not only had a direct and often punishing effect on how the laws operated but how they also further justified the distinction between the colonizer and the colonized *An Empire Divided* James Patrick Daughton,2006 An award winning book An Empire Divided tells the story of how troubled relations between

Catholic missionaries and a host of republican critics shaped colonial policies Catholic perspectives and domestic French politics in the tumultuous decades before the First World War
