The Political Economy of Peru 1956-78 E. V. R. Fitzgerald, 1980-01-10 **Human Rights Trade-Offs in Times of Economic Growth** Areli Valencia, 2016-11-03 This book uncovers a historical dependency on smelting activities that has trapped inhabitants of La Oroya Peru in a context of systemic lack of freedom La Oroya has been named one of the most polluted places on the planet by the US Blacksmith Institute Residents face the dilemma of whether to defend their health or to preserve job stability at the local smelter the main source of toxic pollution in town Valencia unpacks this paradoxical human rights trade off This context shaped by social historical political and economic factors increases people's vulnerabilities and decreases their ability to choose resulting in residents trading off their right to health in order to work This book shows the deep connection of this local dilemma to the country's national paradox arising out of

Drinot, 2014-10-23 Can theory teach us anything about Peru Can Peru teach us anything about theory The chapters in this volume explore these questions by establishing a productive dialogue between Peru and theory Focusing on institutional weakness and economic social gendered racialized and other forms of exclusion key issues in recent social scientific inquiry in Peru the contributors to this volume assess the extent to which the analytical frameworks of a number of social and cultural theorists can inform and at the same time be informed by Peru as a case study

Coastal Lives Maximilian Viatori, Héctor Andrés Bombiella Medina, 2019-04-02 Peru's fisheries are in crisis as overfishing and ecological changes produce dramatic fluctuations in fish stocks To address this crisis government officials have claimed that fishers need to become responsible producers who create economic advantages by taking better care of the ocean ecologies they exploit In *Coastal Lives* Maximilian Viatori and Héctor Bombiella argue that this has not made Peru's fisheries more sustainable Through a fine grained ethnographic and historical account of Lima's fisheries the authors reveal that new government regimes of entrepreneurial agency have placed overwhelming burdens on the city's impoverished artisanal fishers to demonstrate that they are responsible producers and have created failures that can be used to justify closing these fishers' traditional use areas and to deny their historically sanctioned rights The result is a critical examination of how neoliberalized visions of nature and individual responsibility work to normalize the disposessions that have enabled ongoing capital accumulation at the cost of growing social dislocations and ecological degradation The authors' innovative approach to the politics of constructing and degrading coastal lives will interest a wide range of scholars in cultural anthropology environmental humanities and Latin American studies as well as policymakers and anyone concerned with inequality global food systems and multispecies ecologies

developing parts of the world To Be a Worker Jorge Parodi, 2003-06-19 A contemporary classic in Peru where it was first published in 1986 this book explores changes in the political identity and economic strategies of the Peruvian working class in the 1970s and 1980s Jorge Parodi uses a case study of Metal Empresa a large factory in Lima to trace the surge and decline of the labor movement in Peru and in Latin America more generally through the successes and frustrations of the members of a once powerful union as they coped with the nation's deteriorating economic situation By the early 1970s Metal Empresa was the site of one of the most radical and aggressive unions in Peruvian industry But as the decade drew to a close political and economic crises soured the environment for trade unionism and rendered unions less able to produce palpable benefits for their members Through in depth often poignant interviews including an extensive oral history of one of the workers Jesus Zuniga Parodi shows how workers desperate to support themselves and their families were increasingly forced to seek opportunities outside the industrial sector In the process he shows they began to question their very identities as workers
