standards evolve through collective agreement and shared experiences This incisive essay is essential for anyone interested in the philosophy of art or the psychology of taste Hume challenges readers to reflect critically on their aesthetic preferences while acknowledging the cultural influences that shape them making this work a foundational text in both literary theory and aesthetic philosophy

**The Philosophy of David Hume** Norman Kemp Smith, 2005-01-12 Norman Kemp Smith's *The Philosophy of David Hume* has long been regarded as a classic study by scholars in the field a ground breaking book that has since been unsurpassed in its comprehensive coverage of the ideas and issues of Hume's *Treatise* This reissue brings this currently out of print and highly sought after classic up to date with a new introduction by Don Garrett Garrett's new introduction sets the book in its contemporary context and makes the case for its continuing importance in the field of Hume scholarship

**Dialogues Concerning Natural Religion** David Hume, 1779 *Dialogues Concerning Natural Religion* is a philosophical work by the Scottish philosopher David Hume Through dialogue three philosophers named Demea Philo and Cleanthes debate the nature of God's existence Whether or not these names reference specific philosophers ancient or otherwise remains a topic of scholarly dispute While all three agree that a god exists they differ sharply in opinion on God's nature or attributes and how or if humankind can come to knowledge of a deity In the *Dialogues* Hume's characters debate a number of arguments for the existence of God and arguments whose proponents believe through which we may come to know the nature of God Such topics debated include the argument from design for which Hume uses a house and whether there is more suffering or good in the world argument from evil Hume started writing the *Dialogues* in 1750 but did not complete them until 1776 shortly before his death They are based partly on Cicero's *De Natura Deorum* The *Dialogues* were published posthumously in 1779 originally with neither the author's nor the publisher's name Pamphilus is a youth present during the dialogues In a letter he reconstructs the conversation of Demea Philo and Cleanthes in detail for his friend Hermippus He serves as the narrator throughout the piece At the end of the *Dialogues* he believes that Cleanthes offered the strongest arguments However this could be out of loyalty to his teacher as this does not seem to reflect Hume's own views on the topic When other pieces on religion by Hume are taken into consideration it may be noted that they all end with apparently ironic statements reaffirming the truth of Christian religious views While the irony may be less readily evident in the *Dialogues* this would suggest a similar reading of this work's ending 2 Cicero used a similar technique in his *Dialogues* Cleanthes is an experimental theist an exponent of orthodox empiricism 3 who bases his beliefs about God's existence and nature upon a version of the teleological argument which uses evidence of design in the universe to argue for God's existence and resemblance to the human mind Philo according to the predominant view among scholars is the character who presents views most similar to those of Hume 4 Philo along with Demea attacks Cleanthes views on anthropomorphism and teleology while not going as far as to deny the existence of God Philo asserts that human reason is wholly inadequate to make any assumptions about the divine whether through a priori reasoning or observation of nature Demea defends the Cosmological

argument and philosophical theism He believes that the existence of God should be proven through a priori reasoning and that our beliefs about the nature of God should be based upon revelation and fideism Demea rejects Cleanthes natural religion for being too anthropomorphic Demea objects to the abandonment of the a priori arguments by Philo and Cleanthes both of whom are empiricists and perceives Philo to be accepting an extreme form of skepticism The Elements of Mentality David Hume, 2003-06-12 In the 18th century David Hume suggested that the science of man psychology was the foundation for all other sciences philosophy Now a latter day Hume offers a model of mentality that sets psychology and philosophy on common footings eliminating the breach between the sciences and the humanities From this backdrop the author offers solutions to some of the great questions the nature of reality value certainty validity free will morality and justice
