Man'yōshū and the Imperial Imagination in Early Japan Torquil Duthie, 2014-01-09 In Man'yōshū and the Imperial Imagination in Early Japan Torquil Duthie examines the literary representation of the late seventh century Yamato court as a realm of all under heaven Through close readings of the early volumes of the poetic anthology Man'yōshū c eighth century and the last volumes of the official history Nihon shoki c 720 Duthie shows how competing political interests and different styles of representation produced not a unified ideology but rather a bundle of disparate imperial imaginaries collected around the figure of the imperial sovereign Central to this process was the creation of a tradition of vernacular poetry in which Yamato courtiers could participate and recognize themselves as the cultured officials of the new imperial realm

Buddhism and the Transformation of Old Age in Medieval Japan Edward R. Drott, 2016-04-30 Scholars have long remarked on the frequency with which Japanese myths portrayed gods kami as old men or okina Many of these sacred elders came to be featured in premodern theater most prominently in Noh In the closing decades of the twentieth century as the number of Japan's senior citizens climbed steadily the sacred elder of premodern myth became a subject of renewed interest and was seen by some as evidence that the elderly in Japan had once been accorded a level of respect unknown in recent times In Buddhism and the Transformation of Old Age in Medieval Japan Edward Drott charts the shifting sets of meanings ascribed to old age in medieval Japan tracing the processes by which the aged body was transformed into a symbol

of otherworldly power and the cultural political and religious circumstances that inspired its reimagination Drott examines how the aged body was used to conceptualize forms of difference and to convey religious meanings in a variety of texts official chronicles literary works Buddhist legends and didactic tales In early Japan old age was most commonly seen as a mark of negative distinction one that represented the ugliness barrenness and pollution against which the imperial court sought to define itself From the late Heian period however certain Buddhist authors seized upon the aged body as a symbolic medium through which to challenge traditional dichotomies between center and margin high and low and purity and defilement crafting narratives that associated aged saints and avatars with the cults lineages sacred sites or religious practices these authors sought to promote Contributing to a burgeoning literature on religion and the body Buddhism and the Transformation of Old Age in Medieval Japan applies approaches developed in gender studies to denaturalize old age as a matter of representation identity and performance By tracking the ideological uses of old age in premodern Japan this work breaks new ground revealing the role of religion in the construction of generational categories and the ways in which religious ideas and practices can serve not only to naturalize but also challenge common sense about the body **Zen Buddhist Landscape Arts of Early Muromachi Japan (1336-1573)** Joseph D.
