The Poets Other Voice Conversations On Literary Translation:

The Poet's Other Voice Edwin Honig, 1985 Collection includes conversations with Willard Trask John Hollander Herbert Mason Ben Belitt Richard Wilbur Robert Fitzgerald Max Hayward Edmund Keeley Octavio Paz Michael Hamberger Christopher Middleton Twelve distinguished translators share their thoughts on the art and practice of literary translation in this lively series of interviews Although the common subject is the translation of poetry the conversations range across a field of related topics how each person got started as a translator how each goes about the work the qualities that distinguish a great translation from a merely serviceable one the theoretic issues posed by poetic translation the barriers of culture and time the practical details of rendering a poem from one language to the next University of Massachusetts Press *Literary Translation* Clifford E. Landers, 2001-01-01 In this book both beginning and experienced translators will find pragmatic techniques for dealing with problems of literary translation whatever the original language Certain challenges and certain themes recur in translation whatever the language pair This guide proposes to help the translator navigate through them

Literary Translation in Russia Maurice Friedberg, 2012-05-31 In this rich historical study Maurice Friedberg recounts the impact of translation on the Russian literary process In tracing the explosion of literary translation in nineteenth century Russia Friedberg determines that it introduced new issues of cultural aesthetic and political values Beginning with Pushkin in the early nineteenth century Friedberg traces the history of translation throughout the lives of Dostoevsky Tolstoy and more recently Pasternak His analysis includes two translators who became Russia's leading literary figures Zhukovsky whose renditions of German poetry became famous and Vvedensky who introduced Charles Dickens to Russia In the twentieth century Friedberg points to Pasternak's *Faust* to show how apolitical authors welcomed free translation which offered them an alternative to the original writing from which they had been banned by Soviet authorities By introducing Western literary works Russian translators provided new models for Russian literature Friedberg discusses the usual battles fought between partisans of literalism and of free translation the influence of Stalinist Soviet government on literary translation and the political implications of aesthetic clashes He also considers the impetus of translated Western fiction poetry and drama as remaining links to Western civilization during the decades of Russia's isolation from the West Friedberg argues that literary translation had a profound effect on Russia by helping to erode the Soviet Union's isolation which ultimately came to an end with the dissolution of the Soviet Union in 1991

The Translator's Invisibility Lawrence Venuti, 2012-06-25 Since publication over ten years ago *The Translator's Invisibility* has provoked debate and controversy within the field of translation and become a classic text Providing a fascinating account of the history of translation from the seventeenth century to the present day Venuti shows how fluency prevailed over other translation strategies to shape the canon of foreign literatures in English and investigates the cultural consequences of the receptor values which were simultaneously inscribed and masked in foreign texts during this period The author locates alternative translation theories and practices in British

American and European cultures which aim to communicate linguistic and cultural differences instead of removing them In this second edition of his work Venuti clarifies and further develops key terms and arguments responds to critical commentary on his argument incorporates new case studies that include an eighteenth century translation of a French novel by a working class woman Richard Burton's controversial translation of the Arabian Nights modernist poetry translation translations of Dostoevsky by the bestselling translators Richard Pevear and Larissa Volokhonsky and translated crime fiction updates data on the current state of translation including publishing statistics and translators rates *The Translator's Invisibility* will be essential reading for students of translation studies at all levels Lawrence Venuti is Professor of English at Temple University Philadelphia He is a translation theorist and historian as well as a translator and his recent publications include *The Scandals of Translation Towards an Ethics of Difference* and *The Translation Studies Reader* both published by Routledge *Routledge Encyclopedia of Translation Studies* Mona Baker, 2003-09-02 This one volume Encyclopedia covers both the conceptual framework and history of translation Organised alphabetically for ease of access a team of experts from around the world has been gathered together to provide unique new insights *Avoiding Potholes in Translation* Phindile Dlamini, 2023-12-01 This book is a comprehensive introduction to translation studies between English and isiZulu It incorporates crucial concepts for understanding the basics of translation within a South African language context and lays a foundation for further studies in translation The book's content coverage while broad is also in depth and it skillfully integrates examples from varied types of texts The practical and accessible style makes it both engaging and informative The diverse examples illustrate not only the technicalities of translation as a process but the vivid dynamics brought about by the fact that the languages involved in the translation process belong to different language families The use of these examples for almost every aspect of translation explained makes this book unique and valuable to translation scholars and practitioners alike Even though the book uses cases from the isiZulu language it is an applicable reference for translation scholars and practitioners working with different indigenous languages of South Africa Print edition not for sale in Sub Saharan Africa

International Who's Who in Poetry 2004 Europa Publications, 2003 Provides up to date profiles on the careers of leading and emerging poets *Ambition and Anxiety* Line Henriksen, 2006 This comparative study investigates the epic lineage that can be traced back from Derek Walcott's *Omeros* and Ezra Pound's *Cantos* through Dante's *Divina Commedia* to the epic poems of Virgil and Homer and identifies and discusses in detail a number of recurrent key topoi A fresh definition of the concept of genre is worked out and presented based on readings of Homer The study reads Pound's and Walcott's poetics in the light of Roman Jakobson's notions of metonymy and metaphor placing their long poems at the respective opposite ends of their language poles Although there has already been an intermittent critical focus on the classical and Dantean antecedents of Walcott's poetry the present study is the first to bring together the whole range of epic intertextualities underlying *Omeros* and the first to read this Caribbean masterpiece in the context of Pound's achievement Book Jacket

Lost and Found in Translation Martha J. Cutter, 2006-05-18 Starting with Salman Rushdie's assertion that even though something is always lost in translation, something can always be gained, Martha Cutter examines the trope of translation in twenty English language novels and autobiographies by contemporary ethnic American writers. She argues that these works advocate a politics of language diversity, a literary and social agenda that validates the multiplicity of ethnic cultures and tongues in the United States. Cutter studies works by Asian American, Native American, African American, and Mexican American authors. She argues that translation between cultures, languages, and dialects creates a new language that in its diversity constitutes the true heritage of the United States. Through the metaphor of translation, Cutter demonstrates writers such as Maxine Hong Kingston, Sherman Alexie, Toni Morrison, and Richard Rodriguez establish a place within American society for the many languages spoken by multiethnic and multicultural individuals. Cutter concludes with an analysis of contemporary debates over language policy, such as English-only legislation, the recognition of Ebonics, and the growing acceptance of bilingualism. The focus on translation by so many multiethnic writers, she contends, offers hope in our postmodern culture for a new condition in which creatively fused languages renovate the communications of the dominant society and create new kinds of identity for multicultural individuals.
