Padot, 2014-10-10 Government by proxy and intergovernmental relations profoundly affect the public administration of foster care Using examples from foster care systems in the states of Delaware Michigan New York and Rhode Island Rebecca Padot eloquently combines a rigorous methodology and theory work to expose the conditions under which foster care outcomes can be improved The cases selected suggest that the federal government has increased its focus on measuring the performance of state programs while simultaneously decreasing its funding of state foster care programs and offering the states very little management or mentorship Padot turns the page and recommends administrators place a greater priority on building community partners integrating the advice of mentors providing leadership from public managers and cultivating relationships with the federal government An original and timely resource for scholars and practitioners this book represents a significant contribution to our understanding of how leadership and management variables may be associated with more positive foster care practices and performance in the United States *LGBTQ Politics* Marla Brettschneider, Susan Burgess, Christine Keating, 2017-09-19 A definitive collection of original essays on queer politics in the U S and around the world From Harvey Milk to Barney Frank to ACT UP to Proposition 8 in the last few decades no political change has been more significant than the civil rights advancements of LGBTQ citizens LGBTQ Politics is the first authoritative reader to approach the complexity of queer politics from a political science perspective bringing together original contributions from leading scholars in the field on key issues of LGBTQ politics These original essays cover a wide range of essential topics including marriage equality transgender discrimination gay and lesbian political candidates LGBTQ human rights advocacy HIV prevention and LGBTQ movements of the Global South The volume also includes a number of critical essays that reflect upon the state of political science as a discipline that has struggled to address queer politics Contributors draw from a variety of subfields in political science

including comparative politics political theory American politics public law and international relations Essays that focus on mainstream institutional politics appear alongside contributions grounded in grassroots movements and critical theory While some essays express concerns that the democratic basis of the LGBTQ movement has been undermined others celebrate the movement's successes and offer visions for the future A comprehensive thought provoking and authoritative collection LGBTQ Politics A Critical Reader is required reading for anyone looking to learn about the politics of sexuality

The Politics of Child Abuse in America Lela B. Costin, Howard Jacob Karger, David Stoesz, 1997-02-27 Child abuse policy in the United States contains dangerous contradictions The rapidly expanding child abuse industry made up of enterprising psychotherapists and attorneys consumes enormous resources while thousands of poor children are seriously injured or killed many while under the protection by public agencies Meanwhile the public child abuse system has become a virtual nonsystem marked by a staggering turnover of staff unmanageable caseloads a severe shortage of funding and caseloads composed of highly dysfunctional families In *The Politics of Child Abuse in America* the authors argue that child abuse must be viewed as a public safety problem and that children must have the same legal protection as physically and sexually abused women By creating a Children's Authority proposes the author this group would have the overall responsibility of protecting children Offering a unique perspective on the cold reality of this crisis *The Politics of Child Abuse in America* will be a provocative work for social workers and human service personnel as well as the general reader concerned with this timely issue

Scandalous Politics Juliet F. Gainsborough, 2010-11-15 Little work has been done to systematically analyze how high profile incidents of child neglect and abuse shape child welfare policymaking in the United States In *Scandalous Politics* Juliet Gainsborough presents quantitative analysis of all fifty states and qualitative case studies of three states Florida Colorado and New Jersey that reveal how well publicized child welfare scandals result in adoption of new legislation and new administrative procedures Gainsborough's quantitative analysis suggests that child welfare policymaking is frequently reactive while the case studies provide more detail about variations and the legislative process For example the case studies illustrate how the nature and extent of the policy response varies according to particular characteristics of the political environment in the state and the administrative structure of the child welfare system *Scandalous Politics* increases our understanding of the politics of child welfare at both the state and federal level and provides new insights into existing theories of agenda setting and the policy process It will be of interest to everyone involved with child welfare policymaking and especially public policy and public administration scholars

Children and the Politics of Cultural Belonging Alice Hearst, 2012-08-27 Conversations about multiculturalism rarely consider the position

of children who are presumptively nested in families and communities Yet providing care for children who are unanchored from their birth families raises questions central to multicultural concerns as they frequently find themselves moved from communities of origin through adoption or foster care which deeply affects marginalized communities This book explores the debate over communal and cultural belonging in three distinct contexts domestic transracial adoptions of non American Indian children the scope of tribal authority over American Indian children and cultural and communal belonging for transnationally adopted children Understanding how children belong to families and communities requires hard thinking about the extent to which cultural or communal belonging matters for children and communities who should have authority to inculcate racial and cultural awareness and finally the degree to which children should be expected to adopt and carry forward racial or cultural identities **American Book Publishing Record** ,1997-09 Somebody's Children Laura Briggs,2012-03-07 A feminist historian and an adoptive parent Laura Briggs gives an account of transracial and transnational adoption from the point of view of the mothers and communities that lose their children The Emotional Politics of Social Work and Child Protection Joanne Warner,2015-01-12 Social work and child protection systems have for several decades been subject to cycles of crisis and reform with each crisis drawing intense media and political scrutiny In this book Joanne Warner argues that to understand the nature of these cycles we have to pay attention to the importance of collective emotions such as anger shame and fear To do so she introduces the concept of emotional politics Using a range of cases from the United Kingdom the United States the Netherlands and New Zealand Warner reveals that collective emotions are central to constructions of risk and blame and that they are generated and reflected by official documents politicians and the media She also suggests strategies for challenging emotional politics including identifying models for a more politically engaged stance for the social work profession
