The Politics Of Chinese Cultural Revolution:

The Politics of the Chinese Cultural Revolution Hong Yung Lee, 1980-01-01 **The Politics of the Chinese Cultural Revolution** Hong Yung Lee, 2024-03-29 Hong Yung Lee's account of the Cultural Revolution illuminates its complexities and subtleties to an unprecedented degree. His primary concern is with the behavior of the masses once they were freed from party control and his analysis of voluminous Red Guard publications highlights the different membership characteristics, positions and strategies of both the student Red Guards and the worker Revolutionary Rebels divided internally along a conservative-radical line. Rejecting the ideologically oriented assumption that workers and students of worker or peasant origin comprised the majority of the radical elements, Lee argues that students of bourgeois and other bad origins, workers in small factories, sent-down students and demobilized soldiers were the radicals, whereas students from families with pre-1949 revolutionary careers and workers in large-scale and modern enterprises were found in large numbers among the conservatives. He contends that contrary to some social science theories, the radicals were motivated by rational rather than ideological considerations and that they attacked the status quo because it was they who experienced discrimination under the existing political system, whereas the conservatives generally belonged to favored social groups. Lee demonstrates that an adequate history of the Cultural Revolution cannot restrict itself to an analysis of policy difference among the elites but must consider the behavior of the masses and their relationship with the elites. Hong Yung Lee's account of the Cultural Revolution illuminates its complexities and subtleties to an unprecedented degree. His primary concern is with the behavior of the masses once they were freed from party control and his analysis of voluminous Red G

The Cultural Revolution: A Very Short Introduction Richard Curt Kraus, 2012-01-06 China's decade-long Great Proletarian Cultural Revolution shook the politics of China and the world. Even as we approach its fiftieth anniversary, the movement remains so contentious that the Chinese Communist Party still forbids fully open investigation of its origins, development and conclusion. Drawing upon a vital trove of scholarship, memoirs and popular culture, this Very Short Introduction illuminates this complex, often obscure and still controversial movement. Moving beyond the figure of Mao Zedong, Richard Curt Kraus links Beijing's elite politics to broader aspects of society and culture, highlighting many changes in daily life, employment and the economy. Kraus also situates this very nationalist outburst of Chinese radicalism within a global context, showing that the Cultural Revolution was mirrored in the radical youth movement that swept much of the world and that had imagined or emotional links to China's Red Guards. Yet it was also during the Cultural Revolution that China and the United States tempered their long hostility, one of the innovations in this period that sowed the seeds for China's subsequent decades of spectacular economic growth.

Re-envisioning the Chinese Revolution Ching Kwan Lee, 2007 A comprehensive study of contemporary memories of China's revolutionary epoch from the time of Japanese imperialism through the Cultural Revolution. This volume examines the memories of a range of social groups including disenfranchised workers and rural women who have often been

neglected in scholarship **New Perspectives on the Cultural Revolution** William A. Joseph, Christine P.W. Wong, David Zweig, 2020-10-26 Since the Cultural Revolution data have been uncovered to illuminate that tumultuous decade In this volume 13 scholars examine the gap between the ideology of the Revolution and the harsh and contradictory reality of its outcome They focus particularly on the violence coercion and constant tension between the need for centralization to enforce policies and the need for decentralizing decision making if those goals were to be achieved **The World Turned Upside Down** Yang Jisheng, 2021-01-19 Yang Jisheng's *The World Turned Upside Down* is the definitive history of the Cultural Revolution in withering and heartbreaking detail As a major political event and a crucial turning point in the history of the People's Republic of China the Great Proletarian Cultural Revolution 1966-1976 marked the zenith as well as the nadir of Mao Zedong's ultra leftist politics Reacting in part to the Soviet Union's revisionism that he regarded as a threat to the future of socialism Mao mobilized the masses in a battle against what he called bourgeois forces within the Chinese Communist Party CCP This ten year long class struggle on a massive scale devastated traditional Chinese culture as well as the nation's economy Following his groundbreaking and award winning history of the Great Famine Tombstone Yang Jisheng here presents the only history of the Cultural Revolution by an independent scholar based in mainland China and makes a crucial contribution to understanding those years lasting influence today *The World Turned Upside Down* puts every political incident major and minor of those ten years under extraordinary and withering scrutiny and arrives in English at a moment when contemporary Chinese governance is leaning once more toward a highly centralized power structure and Mao style cult of personality **Liu Shaoqi and the Chinese Cultural Revolution** Lowell Dittmer, 2015-02-12 By addressing the issues that decimated China's monolithic elite in the late 1960s this text illuminates not only the life and fate of Liu Shaoqi but also the policy making process of a revolutionary state facing the diverting exigencies of economic modernization and political development *Ten Years of Turbulence* Barbara Barnouin, Changgen Yu, 1993 First Published in 1993 Routledge is an imprint of Taylor Francis an informa company *Rhetoric of the Chinese Cultural Revolution* Xing Lu, 2020-08-05 A startling look at revolutionary rhetoric and its effects Now known to the Chinese as the ten years of chaos the Chinese Cultural Revolution 1966-76 brought death to thousands of Chinese and persecution to millions In *Rhetoric of the Chinese Cultural Revolution* Xing Lu identifies the rhetorical practices and persuasive effects of the polarizing political language and symbolic practices used by Communist Party leaders to legitimize their use of power and violence to dehumanize people identified as class enemies Lu provides close readings of the movement's primary texts political slogans official propaganda wall posters and the lyrics of mass songs and model operas She also scrutinizes such ritualistic practices as the loyalty dance denunciation rallies political study sessions and criticism and self criticism meetings Lu enriches her rhetorical analyses of these texts with her own story and that of her family as well as with interviews conducted in China and the United States with individuals who experienced the Cultural Revolution during their teenage years In her new preface Lu expresses deep

concern about recent nationalism xenophobia divisiveness and violence instigated by the rhetoric of hatred and fear in the United States and across the globe She hopes that by illuminating the way language shapes perception thought and behavior this book will serve as a reminder of past mistakes so that we may avoid repeating them in the future Chinese Politics from Mao to Deng Victor C. Falkenheim, 1989
