

the peasant masses rather than organized armies as the principal insurrectionary force. The implied corollaries to Hsiao's thesis are that Stalin was the Great Progenitor of the Chinese revolution (he was, we are assured, "a cool, circumspect strategist"); and that Mao Tse-tung made no original contributions to the strategy of the Chinese revolution (although Hsiao concedes that Mao was possessed of an "extraordinary ability of execution").

Now, all this may be true, and in fact much of it is not original with this study. But the book would have contributed more significantly to the literature on the period if Hsiao had discussed these and other problems of interpretation more explicitly and if — when there is controversy — he had demonstrated why his interpretations are more cogent than those of other scholars. If, for instance, Stuart Schram is wrong in suggesting that Mao's emphasis on organized military force was Mao's special contribution to Chinese revolutionary strategy, then Hsiao could profitably tell us why. Similarly, if Hsiao is correct that Stalin did not order the Canton Uprising as a means to upstage his opposition at the 15th Party Congress in Moscow, then he should indicate why his evidence is more weighty than that of Schram, Jerome Ch'en, John Rue, and Conrad Brandt, who have asserted that Stalin was in fact directly responsible for that tragedy.

Finally, Hsiao recaptures none of the sense of drama and human interest that pervaded this gripping period of history. He has, in brief, written a book that is moderately useful, but one that is uninspired and often dull.

Government and Politics in Kuomintang China 1927-1937. By HUNG-MAO TIEN. [Stanford and London: Stanford University Press, 1972. 226 pp. \$8.95; £4.50.]

This splendid study analyzes the political institutions and practices of the Kuomintang government during the Nanking Decade, with particular attention to the power relations between the provinces and the central government. Its many tables provide much valuable new data, particularly about financial and personnel aspects of provincial governments.

In the first half of the book, Tien examines the organization and functioning of the central government. He shows that the Kuomintang failed to develop stable government institutions. For example, the bureaucracy inherited from the warlord era was not reorganized or rejuvenated, and throughout the Nanking period was characterized by duplication and overlapping of offices, and general inefficiency. The Party itself was unable to carry the burden of government; it was torn by factionalism, its training and indoctrination programmes were inadequate, internal communications were sloppy, and the Party was simply small in size and centred in only a few cities and provinces.
