the trafficking of the 1980 s This transformation was particularly due to traffickers exploiting global processes to enhance their illegal drug industry In response Jamaica America and Britain have continuously established state oriented actions aimed at curtailing the cross border drug trade thereby reflecting their resilience in combating this problem This book explores past and present drug trafficking within the context of globalisation and examines state instituted responses to curb this problem It demystifies the Jamaican British and American states roles in the face of global security threats such as drug trafficking arguing that both developed and developing states pursue their national interests and maximize their goals through the exercise of state power in controlling their territories and protecting their nationals from harm posed by traffickers
