Small Farm Grain Storage: Preparing grain for storage Carl Lindblad,Laurel Druben,1976

Renewable Resource Utilization for Development Robert P. Morgan,Larry J. Icerman,2013-10-22
Renewable Resource Utilization for Development is a six chapter text that covers the United States initiatives in field of appropriate light capital technology for renewable resource utilization These initiatives include steps policies and programs that the U S government might take adopt or support to aid developing countries in utilizing appropriate technology for renewable resources for the benefit of the poor majority The first two chapters describe the technology advances design and utilization of wind energy and biomass The next chapter focuses on two applications of direct solar energy namely solar drying of crops and timber Another chapter highlights the optimum processing and use of rice bran which is an important postharvest and rural development problem for rice growing developing countries The final two chapters discuss the utilization of material and products based on agricultural wastes and natural fibers These chapters also deal with the organizations and mechanisms for implementing the initiatives and with possible next steps to the U S initiatives This book is of value to economists and environmental pollution control researchers

Fuels And Chemicals From Oilseeds Eugene B. Shultz,2019-02-22 With the sharp rise in petroleum prices over the past decade interest has grown in the possible use of plant and tree seed oils as diesel fuel substitutes or extenders and as chemical feedstocks in both the industrialized and the developing world This book represents the first attempt to bring together science technology and policy aspects of this topic in one volume The authors examine the chemical biological and energy related resources available in commercial and wild plant oilseeds the status of chemical processing efforts and of engine tests using agricultural diesel fuels the potential economic environmental and social impacts of more extensive oilseed utilization and current legislation aimed at stimulating commercialization of strategic renewable agricultural resources
