**The Smart Woman's Guide to Property Law** Carla Spivack, 2020-04-08 The income gap between women and men has gotten lots of attention in the last few decades today women earn seventy nine cents for every dollar men earn But fewer people are aware of the much more serious wealth gap for every dollar in wealth men own women own thirty two cents Thirty two cents Wealth matters Wealth is what gives us a financial safety net when we lose our jobs break up a relationship or divorce we or our dependents become sick or when we are hit by some other financial crisis It enables us to build security to give our children a future and to retire It is passed from generation to generation allowing wealthy families to stay wealthy over time Wealth can generate income whether through investments in the financial markets or real estate or through funding a startup business and more Significant wealth even allows us to influence our world by allowing us to contribute to political campaigns and policy initiatives For these reasons wealth is a better indicator of financial status than income it reveals who is secure and influential and who is not By treating women and men equally without recognizing the gross social and economic advantages that differentiate us the law perpetuates the wealth gap Here Carla Spivack takes readers through a tour of a woman's life stages and the property laws that may apply and hinder their financial independence From living together to marriage from divorce to inheritance the circumstances invite unfair treatment that leaves women out in the cold Understanding how to protect your assets fight for what is fair and increase financial security is increasingly important as the wage gap continues to flourish Readers will learn about the laws that work against them and how to protect themselves regardless of their relationship status For all women of
