Educational Psychology for Learning and Teaching

Dr Sue Duchesne, Dr Anne McMaugh, 2018-10-01 Educational Psychology for Learning and Teaching introduces key theories of development and learning to help you understand how learners learn and how educators can be more effective in their teaching practice. Featuring current research on the various dimensions of learning and teaching alongside traditional theories, it provides a clear framework of theory and evidence that supports modern education practices. Taking a comprehensive approach, this text investigates how to apply psychology principles to education contexts to enhance learning and teaching quality, particularly for accommodating individual student needs. This wholly Australian and New Zealand text caters for those who are planning to work with any age range from early childhood to adolescence and beyond. With a greater focus on resilience in education settings, the discussion of creativity alongside intelligence and a broader discussion on diversity, this new edition is up to date for the pre-service teacher. New print versions of this book come with bonus online study tools on the CourseMate Express and Search Me platforms. Premium online teaching and learning tools are available to purchase on the MindTap platform. Learn more about the online tools cengage.com/au/learning/solutions

Homecoming for Babies After the Intensive Care Nursery Marci J. Hanson, 1993

People with Profound & Multiple Learning

Disabilities Penny Lacey, Carol Oyvry, 2013-11-26 First Published in 1999. This book is designed to be useful to practitioners working with children and adults with profound and multiple learning disabilities (PMLD). It was born out of a need for a practically based text book for participants on a course devoted to the study of PMLD but became a project to provide discussion of interest to anyone wishing to reflect on their work in this field. It is hoped that the nineteen chapters in this book will provide a broad ranging resource for practitioners who work with children and/or adults with PMLD in education, health, social care and voluntary settings and for those studying on advanced courses.

Signing Smart with Babies and Toddlers Michelle E. Anthony, Reyna Lindert, 2025-09-23 A Fun Easy Way to Talk with Your Baby. Babies can communicate with their hands long before they can speak. Using American Sign Language (ASL), Dr Michelle Anthony and Dr Reyna Lindert have created the simple and successful Signing Smart system to teach parents how to integrate signing into everyday life with their hearing children. Through the more than seventy activities presented in this book, parents will learn the tools and strategies they need to understand how to introduce signing and build their child's sign and word vocabulary. Using ASL signs and Signing Smart with hearing infants and toddlers has many benefits, including reducing frustration and tantrums, allowing children to express what they need or want, facilitating speaking, fostering communication, and promoting learning. By using these practical, easy-to-learn methods, parents and babies from as young as five months old to preschool age can converse through signs at mealtime, bath time, playtime, or anytime. Featuring the Signing Smart Illustrated Dictionary with 130 signs.

How to Make Your Child Smart and Intelligent? Dr. J.C.Lall, Dr. S.B.Lall, 2018-08-09 Many experts

now believe that an average child's intelligence develops up to the ages of six to eight years as it does between the ages of 8 to 18 years. Early years in child development are crucial for his or her smartness and intelligence. A restricted or under-stimulated environment may restrict the intelligence of a child. Intelligence as a whole is a combination of book smartness and street environment smartness and is required for success in life. This book contains valuable insight for development of smartness and intelligence and also explains how to increase it. This is described in the form of a practical guide for parents which will help children at home, school and later in life in a positive way. **Baby And Toddler Learning Fun** Sally Goldberg, 2007-10-12. It's never too early to share the joy of learning with a child. Sally Goldberg gives parents the tools to provide such rewarding experiences in an organized fun way with this special book. Here are more than fifty entertaining activities to enjoy with very young children with instructions for making the toys needed for play. Baby and Toddler Learning Fun also provides smart tips for enriching the home environment in other ways for baby's learning. As children grow, the activities can be easily adapted so they remain as much fun for a toddler as for an infant. It's quick and inexpensive to make the toys out of the stuff infants and toddlers already enjoy looking at or handling: plastic containers, stiff paper, brightly colored scraps of material and other household items. This hands-on book not only helps parents teach babies important concepts about colors, shapes, letters and numbers but also brings parent and child closer through engaging playtimes. The activities aren't to be used as drills but rather as part of dynamic play that parent and child will enjoy. Charts help parents keep track of concepts as they are introduced. The activities are equally appropriate for children with learning delays.
