Abolishing Death Irene Masing-Delic,1992-11-01 The idea of abolishing death was one of the most influential myth making concepts expressed in Russian literature from 1900 to 1930 especially in the works of writers who attributed a life modeling function to art To them art was to create a life so aesthetically organized and perfect that immortality would be an inevitable consequence This idea

was mirrored in the thought of some who believed that the political revolution of 1917 would bring about a revolution in basic existential facts specifically the belief that communism and the accompanying advance of science would ultimately be able to bestow physical immortality and to resurrect the dead According to one variant for example the dead were to be resurrected by extrapolation from the traces of their labor left in the material world The author finds the seeds of this extraordinary concept in the erosion of traditional religion in late nineteenth century Russia Influenced by the new power of scientific inquiry humankind appropriated various divine attributes one after the other including omnipotence and omniscience but eventually even aiming toward the realization of individual physical immortality and thus aspiring to equality with God Writers as different as the decadent Fyodor Sologub the political Maxim Gorky and the gothic Nikolai Ognyov created works for making mortals into gods transforming the raw materials of current reality into legend The book first outlines the ideological context of the immortalization project notably the impact of the philosophers Fyodorov and Solovyov The remainder of the book consists of close readings of texts by Sologub Gorky Blok Ognyov and Zabolotsky Taken together the works yield the salvation program that tells people how to abolish death and live forever in an eternal self created cosmos gods of a legend that was made possible by creative artists imaginative scientists and inspired laborers **Slavic Review** ,1981 Coverage of Russian Eurasian and East European issues **Canadian Slavonic Papers** ,1974 **Arts & Humanities Citation Index** ,1980 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world s leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals **Knowledge** ,1901 **The Australian Journal** ,1867 **BattleTech Legends: The Hunters** Thomas S. Gressman,2018-11-22 UNITE OR DIE Carry the fight to the Clans has become the rallying cry for the armies of the Successor States Now as the Great Houses launch an offensive against the Clan Occupation Zone a combined armed task force drawn from across the Inner Sphere begins its own desperate journey Following the road marked out for them by a Clan defector Task Force Serpent sets out to strike a blow at the heart of the Clans at their home worlds For so many years the Inner Sphere has been the prey of the Clans Now in a war to end all wars the hunted have become THE HUNTERS **Oedipus** Lowell Edmunds,Alan Dundes,1995-11-01 Classicist Lowell Edmunds and folklorist Alan Dundes both note that the Oedipus tale is not likely to ever fade from view in Western civilization as the tale continues to pack a critical family drama into a timeless form Looking beyond the story related in Sophocles drama the ancient Theban myth of the son who unknowingly kills his father and marries his mother Oedipus A Folklore Casebook examines variations of the tale from Africa and South America to Eastern Europe and the Pacific Taking sociological psychological anthropological and structuralist perspectives the nineteen essays reveal the complexities and multiple meanings of this centuries old tale In addition to the well known interpretations of the Oedipus myth by Sigmund Freud and James Frazer this casebook includes insightful selections by an international group of scholars Essays on a Serbian Oedipus legend by Friedrich Krauss and on a
