the new state Kens illuminates how Field s experiences in early California influenced his jurisprudence and produced a theory of liberty that reflected both the ideals of his Jacksonian youth and the teachings of laissez faire economics During the time that Field served on the U S Supreme Court the nation went through the Civil War and Reconstruction and moved from an agrarian to an industrial economy in which big business dominated Fear of concentrated wealth caused many reformers of the time to look to government as an ally in the preservation of their liberty In the volatile debates over government regulation of business Field became a leading advocate of substantive due process and liberty of contract legal doctrines that enabled the Court to veto state economic legislation and heavily influenced constitutional law well into the twentieth century In the effort to curb what he viewed as the excessive power of government Field tended to side with business and frequently came into conflict with reformers of his era Gracefully written and filled with sharp insights Kens study sheds new light on Field s role in helping the Court define the nature of liberty and determine the extent of constitutional protection of property By focusing on the political economic and social struggles of his time it explains Field s jurisprudence in terms of conflicting views of liberty and individualism It firmly establishes Field as a persuasive spokesman for one side of that conflict and as a prototype for the modern activist judge while providing an important new view of capitalist expansion and social change in Gilded Age America **Proceedings of the Nebraska State Bar Association** Nebraska State Bar Association,1916
