Social Mobility And Political Attitudes Comparative Perspectives:

Social Mobility and Political Attitudes Frederick C. Turner, This volume provides a fundamental rethinking of the old literature on mobility and politics and a reassessment of interpretive schemes based upon it Turner s findings indicate that much is to be learned from subjecting even cherished assumptions to the rigors of survey research and analytical techniques

Social Mobility and Political Attitudes Frederick C. Turner,1992 This volume provides a fundamental rethinking of the old literature on mobility and politics and a reassessment of interpretive schemes based upon it Turner s findings indicate that much is to be learned from subjecting even cherished assumptions to the rigors of survey research and analytical techniques

Latin America In Comparative Perspective Peter H Smith,2018-10-08 This book highlights the necessity of analyzing Latin American society and politics within broad comparative frameworks It explores methodological strategies for regional comparison and offers new approaches to the study of women state power corporatism and political culture

The International Social Survey Programme 1984-2009 Max Haller,Roger Jowell,Tom W Smith,2009-09-11 The social sciences rely more on the comparative method than on experimental data mainly because the latter is difficult to acquire amongst human populations The International Social Survey Programme has played a pioneering role in creating and sustaining methodologically sophisticated mass attitude surveys across the globe Starting in 1984 with five nations it now encompasses forty five nations spread over five continents each administering an identical annual survey to a random sample of their population Analyses of the data or descriptions of the methodology already appear in over 3 000 publications This book contains new contributions from three dozen eminent scholars who analyse and compare the perceptions and attitudes of citizens across all five continents nations and over time Subjects range from inequality and the role of the state ethnic national and global identities the changing relevance of religion beliefs and practices gender roles family values and work orientations household and society Some chapters focus on methodological issues others focus on substantive findings This book sets new standards for cross cultural research

The Moral Economy of Class Stefan Svallfors,2006 A comparative study of political attitudes across social classes examining what accounts for such differences in opinion and determining whether these differences change over time

New Critical Writings in Political Sociology Alan Scott,2024-11-01 The articles collected together in this volume are concerned with why and how people get involved in politics whether through formal mechanisms such as voting through some of the more informal means and settings of social movement networks and political protest or through engagement in public debate But just as important is the question of why people do not get involved in politics What social conditions ideas and values facilitate or discourage political activity How is it that some people are systematically disempowered in democratic societies in comparison with others What social forms offer the most promise for extending and deepening democracy This volume brings together the most seminal papers which together form a record of how political sociologists since the 1970s have framed questions about the range and limits of democratic political

engagement and developed concepts and methodologies in order to research the answers to those questions **The Shape of Social Inequality** David Bills, 2005-08-24 This volume brings together former students colleagues and others influenced by the sociological scholarship of Archibald O Haller to celebrate Haller's many contributions to theory and research on social stratification and mobility All of the chapters respond to Haller's programmatic agenda for stratification research A full program aimed at understanding stratification requires first that we know what stratification structures consist of and how they may vary second that we identify the individual and collective consequences of the different states and rates of change of such structures and third seeing that some degree of stratification seems to be present everywhere that we identify the factors that make stratification structures change The contributors to this Festschrift address such topics as the changing nature of stratification regimes the enduring significance of class analysis the stratifying dimensions of race ethnicity and gender and the interplay between educational systems and labor market outcomes Many of the chapters adopt an explicitly cross societal comparative perspective on processes and consequences of social stratification The volume offers both conceptually and empirically important new analyses of the shape of social stratification **Elite Cohesion in Mediatized Politics** Eva Mayerhöffer, 2018-11-09 This book presents the first comprehensive analysis of the political communication elite high ranking journalists editors politicians and their communication advisors that shapes the content and form of political messages news debate and decisions in modern democracies Based on an innovative combination of elite theory and political communication studies the book develops an integrated and comprehensive approach to elite cohesion in political communication focusing on the extent and patterns of attitudinal consonance among media and political elites Building on unique survey data from more than 1 500 high ranking politicians and journalists in six European countries Sweden Denmark Germany Austria France and Spain the book provides unique insights into current reality of mediatized politics and the key players shaping it **Social Mobility in Industrial Society** Seymour Lipset, 2018-04-27 In a careful analysis of the existing literature the authors marshal an imposing array of evidence in support of their major argument that social mobility is an integral and continuing aspect of the process of industrialization This classic volume continues to be a basic reference source in the field of occupational mobility **People and Their Opinions** Eric B. Shiraev, Richard Sobel, 2015-07-02 Utilizing both a critical thinking approach and a comparative perspective throughout the text Sobel and Shiraev provide comprehensive coverage of public opinion while also teaching students the basic skills necessary for measurement understanding and interpreting Written in an accessible and engaging manner this text provides a unique and practical introduction to the field of public opinion The book begins by schooling the reader in how to think critically and then helps students apply those techniques as they encounter the concepts of public opinion The text also employs a comparative perspective demonstrating the effect and nature of public opinion in other countries while also placing American public opinion in context
