

CHAPTER 1: INTRODUCING SOCIAL PSYCHOLOGY

WHAT IS SOCIAL PSYCHOLOGY?	SOCIAL PSYCHOLOGY'S BIG IDEAS	SOCIAL PSYCHOLOGY AND HUMAN VALUES	IS SOCIAL PSYCHOLOGY SIMPLY COMMON SENSE?	RESEARCH METHODS: HOW WE DO SOCIAL PSYCHOLOGY
The scientific study of how people think about, influence, and relate and view to one another.	We Construct Our Social Reality: We humans have an irresistible urge to explain behavior, to attribute it to some cause, and therefore to make it seem orderly, predictable, and controllable	Obvious Ways Values Enter Psychology: Values enter the picture when social psychologists choose research topics. Values also influence the types of people who are attracted to various disciplines.	We constantly observe people thinking about, influencing, and relating to one another. It pays to discern what a facial expression predicts, how to get someone to do something, or whether to regard another as friend or foe.	To test a hypothesis, social psychologists may do research that predicts behavior using correlational studies, often conducted in natural settings. Or they may seek to explain behavior by conducting experiments that manipulate one or more factors under controlled conditions..
Social psychology focuses more on individuals and uses more experimentation; focuses less on individuals' differences and more on how individuals, in general, view and affect one another.	Some Big Ideas in Social Psychology: (Social thinking) 1. We construct our social reality 2. Our social intuitions are powerful, sometimes perilous 3. Attitudes shape, and are shaped by, behavior (Social influences) 4. Social influences shape behavior 5. Dispositions shape behavior (Social relations) 6. Social behavior is also biological behavior	Not-So-Obvious Ways Values Enter Psychology: THE SUBJECTIVE ASPECTS OF SCIENCE PSYCHOLOGICAL CONCEPTS CONTAIN HIDDEN VALUES	Hindsight bias: The tendency to exaggerate, after learning an outcome, one's ability to have foreseen how something turned out. Also known as the I-knew-it all-along phenomenon.	Forming and Testing Hypotheses a. Theory b. Hypotheses Correlational Research: Detecting Natural Associations a. Correlation and Causation b. American Egyptologist Jeffrey Abt, 2012-05-01 James Henry Breasted 1865 1935 had a career

that epitomizes our popular image of the archaeologist Daring handsome and charismatic he traveled on expeditions to remote and politically unstable corners of the Middle East helped identify the tomb of King Tut and was on the cover of Time magazine But Breasted was more than an Indiana Jones he was an accomplished scholar academic entrepreneur and talented author who brought ancient history to life not just for students but for such notables as Teddy Roosevelt and Sigmund Freud In American Egyptologist Jeffrey Abt weaves together the disparate strands of Breasted's life from his small town origins following the Civil War to his evolution into the father of American Egyptology and the founder of the Oriental Institute in the early years of the University of Chicago Abt explores the scholarly philanthropic diplomatic and religious contexts of his ideas and projects providing insight into the origins of America's most prominent center for Near Eastern archaeology An illuminating portrait of the nearly forgotten man who demystified ancient Egypt for the general public American Egyptologist restores James Henry Breasted to the world and puts forward a brilliant case for his place as one of the most important scholars of modern times

Boomerang Kids: The Demography of Previously Launched Adults D. Nicole Farris, 2016-04-25 Combining statistical analyses and personal interviews this book examines the phenomenon of adult children in the United States who have returned to living with their parents in the family home It uses both data and narrative to fully detail how such co-residency has shaped this ever increasing demographic group who are often referred to as previously launched adults or boomerang children The author first presents quantitative research using data obtained from the National Survey of Families and Households Readers will discover the various demographic household and economic variables that might lead an individual to move back in with his or her family This statistical analysis is complemented by 50 qualitative interviews that offer a more in depth look at the trend from the point of view of those who have experienced it These interviews of both adult children and their parents cover such areas as personal background the effects of returning to the parental home and self-esteem issues In addition the book offers cross country comparisons by looking at the prevalence of this phenomenon in China and Greece It discusses the different cultural contexts in which adult child and parent co-residence is not seen as particularly deviant as it is in America as well as identifies some of the demographic and economic factors that would cause those in different countries to continue to live with their parents This book furthers research into the sociological study of the family The quantitative analyses describe the large scale trends and their implications the interviews provide an important personal context while the cross country comparisons offer additional perspectives Overall readers will gain a complete picture of this unprecedented demographic shift in the United States including important policy implications and the plight of young adults coming of age in the 21st century

The Annals of the American Academy of Political and Social Science, 1915 **The Social Economics of Poverty** Christopher B. Barrett, 2006-10-03 A unique analysis of the moral and social dimensions of microeconomic behaviour in developing countries this book calls into question standard notions of rationality and many of the assumptions of neo-classical economics and

shows how these are inappropriate in communities with widespread disparity in incomes This book will prove to be essential for students studying development economics *Annals of the American Academy of Political and Social Science* ,1926
