Social Research and the Practicing Professions Robert King Merton, 1982 Social Research and the Practicing Professions Robert King Merton, Aaron Rosenblatt, Thomas F. Gieryn, 1984-01-01 Originally published by Abt Books in 1982 this three part collection of essays taps the seminal thinking of Robert Merton one of America's foremost sociologists a social theorist whose work has long had what are described as potentials of relevance for diverse domains of practice This book examines the interplay between social research and social policy with a focus on the practicing professions medicine and its allied disciplines the law social services and the clergy Aimed at members of the practicing professions sociologists economists and makers of policy Robert K. Merton and Contemporary Sociology Carlo Mongardini, 2018-04-17 This volume offers scholars of sociology and allied areas the fruits of an international conference on the contributions of the eminent Robert K Merton The assessment as good in content as well as in participants took place in Amalfi Italy with the participation of Merton himself and under the auspices of the Italian Sociology Association Carlo Mongardini aptly summarizes the unique impact of Merton on the social theory of our century His strength as a classic writer lies in his balance unveiling complexity and in his humanism which looks beyond the apparent simplicity and coherence of social reality A special treat is the final chapter by Merton reviewing Unanticipated Consequences and Kindred Sociological Ideas In it he ranges from the historical antecedents of the concept to his own evolution in the use and expansion of the idea Merton approaches the development of his thought as installments rather than simple evolution and in so doing gives us unique insight into how he built upon his originating notions in the context of social science as it existed in the United States Tensions between integrating scholarship and reaching the general public provide a special insight into Merton that might prove new even to those who know his work well Contributors to this original volume include Volker Meja Nico Stehr Paolo Ammassari Gianni Statera Birgitta Nedelmann Harriet Zuckerman Piotr Sztompka Peter Gerlich Charles Crothers Elena Besozzi and Arnold Zongnerle among others The chapters address the full range of Merton's work with special emphasis on such areas as anomie structural analysis the relationship of theory to research patterns of latent and manifest influence and even the application of Mertonian concepts to the analysis of Merton as a scholar This unusual compendium translated from the Italian will interest social researchers across the academic spectrum **Social Research and the Practicing Professions** Robert King Merton, 1982 **Reintroducing Robert K. Merton** Charles Crothers, 2020-12-30 This book reintroduces the work of Robert K Merton as a bridge between classical sociology and modern sociology Founded in the sociological classics but developing a modern approach to the advancement of theory and research methodology Merton's thought helped to construct modern sociology in its coverage of many of the social institutional areas of contemporary society Recovering and analysing the system of structural analysis which Merton progressively developed a system largely overlooked due to the tendency among commentators to stereotype him as a functionalist the author considers the

applications of this approach to various substantive fields particularly science and criminal justice and examines the effect of Merton's later sociological semantics on his overall schema. A clear and accessible presentation of the array of concepts introduced by Merton to sociology. Reintroducing Robert K Merton will appeal to scholars and students with interests in sociological theory, social research, the history of sociology and the various substantive areas covered in the work of Merton: deviance, science and communications.

Robert K. Merton Craig Calhoun, 2010-09-07 Robert K Merton 1910-2003 was one of the most influential sociologists of the twentieth century producing clear theories and innovative research that continue to shape multiple disciplines. Merton's reach can be felt in the study of social structure, social psychology, deviance, professions, organizations, culture and science. Yet for all his fame Merton is only partially understood. He is treated by scholars as a functional analyst when in truth his contributions transcend paradigm. Gathering together twelve major sociologists, Craig Calhoun launches a thorough reconsideration of Merton's achievements and inspires a renewed engagement with sociological theory. Merton's work addressed the challenges of integrating research and theory. It connected different fields of empirical research and spoke to the importance of overcoming divisions between allegedly pure and applied sociology. Merton also sought to integrate sociology with the institutional analysis of science, each informing the other. By bringing together different aspects of his work in one volume, Calhoun illuminates the interdisciplinary and unifying dimensions of Merton's approach while also advancing the intellectual agenda of an increasingly vital area of study.

Constructing Social Research Objects, 2021-05-03 The third volume on theoretical driven methodology in the social sciences, again edited by Håkon Leiulfsrud and Peter Sohlberg, explains how to identify sociological research objects and the art of living theory. Theoretical concepts such as social structure, the Global South, social bonds, organisations and management are explored and developed by a broad range of authors. The methodological chapters, including critical notes on sociology and uses of statistics, the value of thought experiments in sociology, researching subjects in time and space, and an academic star war between Pierre Bourdieu and Dorothy E. Smith, are indispensable for researchers and students interested in theoretical construction work in the social sciences. Contributors are: G. Ahrne, Michela Betta, Harriet Bjerrum Nielsen, Michael Burawoy, Raju Das, David Fasenfest, Raimund Hasse, John Hjelldre, Håkon Leiulfsrud, Emil A. Ryrvik, John Scott, Peter Sohlberg, Karin Widerberg, and Richard Swedberg.
