Social Security Systems In Latin America:

Social Security in Latin America Carmelo Mesa-Lago, 1978-11-15 A comprehensive and sophisticated study of the relationship between social security policy and inequality in Latin America Individual case studies of Chile Uruguay Peru Argentina and Mexico are presented that provide a historical analysis of each country's social security policy the pressure groups involved the present structure of the systems and a statistical examination of the inequality among these pressure groups

Social Security Systems in Latin America Francisco E. Barreto de Oliveira, 1994 But Latin America now faces economic and social challenges that are forcing policymakers to find ways to reform social security Insufficient funding and a lack of incentive to improve quality and efficiency have compromised many programs and today they often do not reach those who most urgently need them Large deficits low contribution rates widespread tax evasion and increasing insolvency exacerbate the problem

Social Security in Latin America William Paul McGreevey, 1990 This study reviews the findings of a number of background papers on social security in Latin America sector work and a series of three meetings of experts that explored the major issues facing social security institutions In Latin America social security institutes have been competently managed for the most part and have a proven record of successfully delivering social services to their members The central theme of this report is the great and largely untapped potential of social security institutions to relieve poverty in Latin America By taking advantage of the positive characteristics of these institutions and repairing at least some of the efficiency problems countries could achieve an enhanced level of income security for the aged better coverage of basic health services and wider protection from economic disasters for the whole population A wider revenue base would accommodate an increase in coverage of the population if combined with a prudently designed benefit package There is ample evidence from countries in the region that have experimented with such reforms that they can be made and that they are desirable and feasible on economic grounds Political feasibility is more difficult to assess but can be enhanced by well informed carefully designed reforms

Reassembling Social Security Carmelo Mesa-Lago, 2008-01-31 The reform of social security pensions and healthcare is a key issue for the modern world and in many ways Latin America has acted as a social laboratory for the reform of these systems From the reforms that took place in Chile in 1981 most pension and health care systems in the region have seen reform and been fully or partially privatized Many other countries considering reform of their own systems have been influenced by the policies implemented in Latin America Yet despite the importance and influence of these reforms until now there has not been an integrated and comprehensive analysis of the changes and their effects This book is the result of four years of painstaking work data collection field research and international collaboration and so fills the vacuum in the literature with a systematic comparison of pension and healthcare reforms in the 20 Latin American countries It identifies reform models and elaborates taxonomies to facilitate their understanding and comparison Some key features of the reforms to emerge are labour force and population coverage equity and solidarity sufficiency and quality of benefits state

regulation competition and degree of privatization efficiency and administrative costs social participation in management financing sources and long term sustainability Effects of the reforms on social security principles are measured based on recent standardized statistics and other information Goals or assumptions of the reforms are contrasted with actual outcomes and the pros and cons of private versus private provision assessed Detailed policy recommendations are offered to correct current problems and improve pension and healthcare systems This is the first book to comprehensively study these influential reforms in Latin America s pension and health care systems and as such will be of importance to academics and researchers interested in social security and welfare policy pensions health care and public policy Social security pension and health care policy makers And social security pension and health care consultants and practitioners Published in association with PAHO

Keeping the Promise of Social Security in Latin America Indermit S. Gill, Truman G. Packard, Juan Yermo, 2004-10-25 Empirical analysis of two decades of pioneering pension and social security reform in Latin America and the Caribbean shows that much has been achieved but that critical challenges remain In tackling this unfinished agenda a great deal can be learned from the reform experience of countries in the region Keeping the Promise produced by the chief economist s office for the Latin America and Caribbean region at the World Bank evaluates policy reforms in 12 countries points to successes and shortcomings and proposes priorities and options for future reform

Keeping the Promise of Social Security in Latin America Indermit Singh Gill, Truman Packard, Truman G. Packard, Juan Yermo, 2005 Latin American governments that have undertaken structural overhauls to their national pension systems have improved their budget position made public pensions more equitable and encouraged savings and investment This study says that despite these improvements coverage of social security and private pensions remains stubbornly low across the region As a result it urges policy makers to face the challenge of increasing coverage building on the positive changes brought by reforms to date

Latin American Social Policy Developments in the Twenty-First Century Natália Sátyro, Eloísa del Pino, Carmen Midaglia, 2021-02-12 This book explores the scope of reforms and changes in the social protection systems in Latin America that have started at the beginning of the 21st century It describes how and to what extent changes in social protection systems and social policies have occurred in the region in recent decades Taking a comparative approach the volume identifies the triggers for the transformations and how such pressures are received by the welfare regime or a specific policy sector to finally yield a given type of reform The analysis is characterized by the presence of certain factors that explain the development of social protection systems in Latin America such as economic growth the consolidation of democratic political regimes and the region s Left Turns The book also examines to what extent common challenges and processes induced by international institutions have led to convergence among countries or welfare regimes or whether each maintains its own identity

Social Security Issues in Developing Countries International Monetary Fund, 1988-02-22 The paper surveys the major economic financial and administrative issues that confront social security systems in Latin America The larger

systems have contributed substantially to public sector financial disequilibria Expenditures of the younger systems with more limited coverage could increase dramatically as the pension plan matures life expectancy increases and coverage is broadened but the narrow revenue base will force a tradeoff between broader coverage and the generosity of benefits Most plans are pay as you go and the case for full or partial funding is not found to be compelling The inflationary environment can have a substantial effect on the financial balance even under full indexation The Crisis of Social Security and Health Care Carmelo Mesa-Lago, 1985 Research report case studies of social security systems and health service programmes in Latin America includes a comparison with the USA explains health policy trends in relation to guaranteed income schemes discusses financing of old age benefits the impact of social security on income redistribution economic development labour force participation etc considers alternative strategies References statistical tables **Labor Market Policies in Canada and Latin America: Challenges of the New Millennium** R. Albert Berry, 2013-03-14 Canada and the countries of Latin America are in the midst of major changes and choices in the area of labor markets and related social policy These decisions are likely to have profound consequences for the quality of life of workers throughout the hemisphere Labor Market Policies in Canada and Latin America Challenges of the New Millennium reviews the evidence of Canada and Latin America on three major labor policy instruments unemployment insurance minimum wages and training and on the effects of the payroll taxes which are the main means of funding the unemployment insurance system and other components of social expenditure This is the first study attempting an in depth comparison of these labor policy instruments between Canada and Latin America The useful juxtaposition of Canadian and Latin American experiences comes at a time when the trend in Canada is to back away from the perhaps overly generous or ineffectively administered elements of the labor legislation social security net and when Latin American countries have undertaken significant reforms of their past systems but require further changes to move toward the sorts of legislation and support systems that characterize developed countries The experiences of Canada and Latin America are mutually relevant since all are small economies forced to adjust to events at the world or hemispheric level and most are inclined to approach policy in an intermediate fashion which falls between the more market oriented American and the more interventionist European models Together with its comparative aspect this volume attempts a more balanced and in depth assessment in each of the policy areas than has hitherto been available The gradually increasing base of available empirical data on the period after the reforms has been used in the studies which provide thorough syntheses of the available research for Canada and Latin America
