In its new edition, *The Practice of Generalist Social Work* provides in depth understanding of the knowledge, skills, values, and affective and cognitive processes needed for social work practice in the present moment. Grounded in a strengths-based perspective, chapters in the textbook discuss practice with individuals, families, groups, communities, and organizations and guide students through all phases of the change process with the aid of case studies, examples, and exercises that highlight and provide connections to real life practice situations. Theoretical frameworks, important value and ethical considerations, and pivotal communication skills are all included in the text's comprehensive coverage of different practice settings with clients and communities. The sixth edition is now guided by the 2022 Council on Social Work Education Educational Policy and Accreditation Standards (EPAS) with connections to renewed objectives and competencies integrated throughout and is further updated to reflect and focus on new developments within the discipline. These include anti-racism efforts and movements to address entrenched racial inequities, the practice of cultural humility and cultural responsiveness, and attention to community-based implications of the COVID-19 pandemic. Strengthened and now fully up to date, this edition of *The Practice of Generalist Social Work* provides a sweeping in depth and lively introduction to social work practice for generalist courses and is supported by a range of fully updated resources for instructors and their students on www.routledgesw.com.

Content includes social work theory, therapeutic and risk management interventions, emotional and ethical aspects of practice, political and cultural contexts of practice, and issues around supervision and assessment. The book also includes introductions, real life case study exercises, points for reflection, diagrams, and tables. Further reading and resources equip new students to reflect upon their own journeying and to learn more effectively from modules and placements. Provides case study material on all aspects of placements such as meeting Key Roles and value requirements, covers career pathways for final year students including guidance on dealing with job interviews and occupational stress. This is important reading across a range of modules and will be particularly valuable for new students and students on placement.
