Social Dreaming Work:

Social Dreaming @ Work W. Gordon Lawrence, 2018-04-17 Social Dreaming is the name given to a method of working with dreams that are shared and associated to within a gathering of people coming together for this purpose Its immediate origins date back to the early 1980s At that time Gordon Lawrence was on the scientific staff of the Tavistock Institute of Human Relations He was a core member of the Institute s Group Relations Programme within which he had developed a distinctive approach centring around the concept of relatedness that is the ways in which individual experience and behaviour reflects and is structured by conscious and unconscious constructs of the group or organization in the mind

Social Dreaming Susan Long, Julian Manley, 2019-01-03 The idea of social dreaming argues that dreams are relevant to the wider social sphere and have a collective resonance that goes beyond the personal narrative In this fascinating collection the principles of social dreaming are explored to uncover shared anxieties and prejudices suggest likely responses enhance cultural surveys inform managerial policies and embody community affiliation Including for the first time a coherent epistemology to support the theoretical principles of the field the book reflects upon and extends the theory and philosophy behind the method as well as discussing new research in the area and how social dreaming practice is conducted in a range of localities situations and circumstances The book will appeal to anyone interested in the idea that social dreaming can help us to delve deeper into the question of what it means to be human from psychoanalysts to sociologists and beyond Social Dreaming @ Work W. Gordon Lawrence, 2018 Social Dreaming is the name given to a method of working with dreams that are shared and associated to within a gathering of people coming together for this purpose Its immediate origins date back to the early 1980s At that time Gordon Lawrence was on the scientific staff of the Tavistock Institute of Human Relations He was a core member of the Institute s Group Relations Program within which he had developed a distinctive approach centering around the concept of relatedness that is the ways in which individual experience and behavior reflects and is structured by conscious and unconscious constructs of the group or organization in the mind What Lawrence has discovered or rediscovered in the social dreaming matrix is another context of contexts for dreaming in which the emotional experience on which our capacity for dreaming for entertaining dream thoughts works is not that of the pair but that of the many group society tribe collective race species Within this or these contracts the meanings of the dream and dreaming spread out to capture and formulate echoes of the thoughts that are there in the space between the many in mind David Armstrong from his Introduction Provided by publisher **Experiences in Social Dreaming** W. Gordon Lawrence, 2018-07-03 Social Dreaming is the name given to a method of working with dreams that are shared and associated within a gathering of people coming together for this purpose In the first chapter he outlines some ideas on this phenomenon Here follows a wide ranging collection of essays on the experiences of various practitioners either personal or what they have found when taking this phenomenon into the wider social arena such as the church schools consultancy and working with children Infinite

Possibilities of Social Dreaming W. Gordon Lawrence, 2018-04-24 Examining recalled dreams with many others in a Social Dreaming Matrix leads to the transformation of the thinking embedded in the dreams There are infinite meanings to a dream by regarding the dream as an unconscious product of cultural knowledge not as an expression of the psyche exclusively opening new possibilities of thinking

Social Dreaming, Associative Thinking and Intensities of Affect Julian Manley, 2018-08-23 This book describes a way of sharing dreams in a group called social dreaming It explores how the sharing of real night time dreams in a group can offer information on and insight into ourselves and the worlds we live in and share It investigates how we can turn dream images and ideas and feelings that arise from these images into conscious thought before describing the ways in which these can be used Using a background of the psychosocial combined with a philosophical lens influenced by the work of Gilles Deleuze Julian Manley shows how social dreaming can be understood as a Deleuzian rhizome of affects a web or a root design where things interconnect in a random and spontaneous fashion rather than in a sequential or linear way He illustrates how social dreaming can link dreams together into a collage of images and compares this to the rhizome where clusters of emotional intensity which emerge from the dream images weave and interconnect with other clusters forming a web of interlinked dream images and emotions From the basis of this rhizome emerges an interpretation of social dreaming as a body without organs and the social dreaming matrix as a smooth space where meanings emerge from the way these images form connections and come and go according to our emotions at any particular moment

The Creativity of Social Dreaming W. Gordon Lawrence, 2018-03-21 This broad range of papers covers different aspects of social dreaming The book begins with a summary of the Social Dreaming Matrix conceptualised as a temporary system with its intakes transformation processes and outputs The remaining chapters cover social dreaming in different contexts including amongst others from the perspectives of art architecture theatre working with immigrants with pilots and lawyers and family mediators and hospitals All the papers cover areas outside of the goal orientated activities of the institution and examine what they may be saying about the organization of the participants

Introduction to Social Dreaming W. Gordon Lawrence, 2018-05-08 This book explains social dreaming by situating it in the context of thinking culture and knowledge and distinguishes how it differs from conventional therapeutic dreaming making the case for how it can be used in systems like business organizations educational institutions and hospitals
