colonial ethnography newspapers and interviews this book examines the lives of untouchable migrants through their everyday experience in an overseas multi ethnic environment It examines how these migrants who in many ways occupied the bottom rungs of their communities and colonial society framed transnational issues of identity and social justice in relation to their experiences within the broader Indian diaspora in Singapore The book traces the manner in which untouchable identities evolved and then receded in response to the dramatic social changes brought about by colonialism war and post colonial nationhood By focusing on a subaltern group from the past this study provides an alternative history of Indian migration to Singapore and a different perspective on the cultural conversations that have taken place between India and Singapore for much of the island s modern history

Towards a New Social Work Howard Jones, 2023-07-21 In the 1970s social work in Britain was in crisis A process of self searching had begun stimulated by changes in the organization of social services departments by the growth of the radical movement in social work and by the emergence of new techniques in social work All this might have seemed a confusing and depressing prospect but Professor Howard Jones the editor of this collection of essays originally published in 1975 felt on the contrary that this new situation in social work presented an opportunity for a potentially rewarding debate He believed that the old unsatisfactory mould had been broken and that it was now possible for the first time for many years to look at the basic issues in social work without preconceptions The contributors to this book were all actively involved in the teaching and practice of social work at the time and they came

together to initiate a debate on the leading issues of the day They were all concerned to find a right course for social work in this crucial period and among the topics they cover are social work training social workers and political action community participation and making use of research

The Campaign for Prohibition in Victorian England Anthony Dingle, 2016-07-07 The evils of drink were a constant preoccupation in late Victorian England The United Kingdom Alliance founded in 1853 fought a long and vigorous but ultimately unsuccessful campaign for prohibition In doing so it eventually developed into one of the most powerful reformist pressure groups operating in Victorian political life First published in 1980 this book covers in extensive detail the legislative activity of the Alliance and analyses the administration and campaign strategies involved from its formation to the disastrous electoral defeat of the liberal party in 1895 Stressing that the phenomenon of Prohibition cannot be adequately explained purely in political terms this study shows that the preliminary success and eventual failure of the Alliance was closely related to its nonconformist ethics and attitudes This book will be of interest to those studying Victorian history politics and religion

From Policy to Practice Martin Rein, 2017-09-29 This title was first published 1983 A common method concern and argument underlie all of these essays The method is value critical The concern is with a more institutionally grounded understanding of why governments do what they do The argument is substantive dealing with concrete issues such as the claim for economic resources social protection and the organization of social services The canonical that is the conventional and normative view is thrown into question on the implicit assumption that things do not work as expected that there is inherently a difference between the text and the message
