Hindu Iconoclasts Noel Salmond, 2006-01-01 Why Salmond asks would nineteenth century Hindus who come from an iconic religious tradition voice a kind of invective one might expect from Hebrew prophets Muslim iconoclasts or Calvinists Rammohun was a wealthy Bengali intimately associated with the British Raj and familiar with European languages religion and currents of thought Dayananda was an itinerant Gujarati ascetic who did not speak English and was not integrated into the culture of the colonizers Salmond s examination of Dayananda after Rammohun complicates the easy assumption that nineteenth century Hindu iconoclasm is simply a case of borrowing an attitude from Muslim or Protestant traditions Salmond examines the origins of these reformers ideas by considering the process of diffusion and independent invention that is whether ideas are borrowed from other cultures or arise spontaneously and without influence from external sources Examining their writings from multiple perspectives Salmond suggests that Hindu iconoclasm was a complex movement whose attitudes may have arisen from independent invention and were then reinforced by diffusion Although idolatry became

the symbolic marker of their reformist programs Rammohun's and Dayananda's agendas were broader than the elimination of image worship These Hindu reformers perceived a link between image rejection in religion and the unification and modernization of society part of a process that Max Weber called the disenchantment of the world Focusing on idolatry in nineteenth century India Hindu Iconoclasts investigates the encounter of civilizations an encounter that continues to resonate today

The Biblical Politics of John Locke Kim Ian Parker, 2006-01-01 John Locke is often thought of as one of the founders of the Enlightenment a movement that sought to do away with the Bible and religion and replace them with scientific realism But Locke was extremely interested in the Bible and he was engaged by biblical theology and religion throughout his life In this new book K I Parker considers Locke's interest in Scripture and how that interest is articulated in the development of his political philosophy Parker shows that Locke's liberalism is inspired by his religious vision and particularly his distinctive understanding of the early chapters of the book of Genesis Unlike Sir Robert Filmer who understood the Bible to justify social hierarchies i e the divine right of the king the first born son's rights over other siblings and the natural subservience of women to men Locke understood from the Bible that humans are in a natural state of freedom and equality to each other The biblical debate between Filmer and Locke furnishes scholars with a better understanding of Lockes political views as presented in his Two Treatises *The Biblical Politics of John Locke* demonstrates the impact of the Bible on one of the most influential thinkers of the seventeenth century and provides an original context in which to situate the debate concerning the origins of early modern political thought

Law in Religious Communities in the Roman Period Peter Richardson, Stephen Westerholm, Albert I. Baumgarten, Michael Pettem, Cecilia Wassén, 2006-01-01 The role and function of law in religious communities in the Roman period especially in Judaism has been a key issue among scholars in recent years This thought provoking work is the first full scale attempt to write a historical assessment of the scholarly debate concerning this question focussing on two closely related religious communities Judaism and Christianity By juxtaposing the two religions a clearer understanding of the developments with respect to torah and nomos in Judaism and early Christianity emerges This insightful work placing emphasis on the major figures and both the scholarly lines of development and the appropriate lines for future research will set the debate in a clearer and more and succinct manner It will serve as a critical point of reference for further discussion

Religious Rivalries and the Struggle for Success in Caesarea Maritima Terence L. Donaldson, 2000-05-11 We know how the story of the Roman Empire ended with the triumph of Christianity and the eventual Christianization of the Roman Mediterranean But how would religious life have appeared to an observer at a time when the conversion of the emperor was only a Christian pipe dream And how would it have appeared in one particular city rather than in the Roman Empire as a whole This volume takes a detailed look at the religious dimension of life in one particular Roman city Caesarea Maritima on the Mediterranean coast of Judea Caesarea was marked by a complex religious identity from the outset Over time other religious groups including Christianity Mithraism and Samaritanism found a home in the city where they jostled with each other and with those already present for position influence and the means of survival Written by a team of seasoned scholars and promising newcomers this book brings a new perspective to the study of religion in antiquity Along with the deliberate goal to understand religion as an urban phenomenon Religious Rivalries and the Struggle for Success in Caesarea Maritima studies religious groups as part of the dynamic process of social interaction spanning a spectrum from coexistence through competition and rivalry to open conflict The cumulative result is a fresh and fascinating look at one of antiquity s most interesting cities

"Lord, Giver of Life" Jane Barter Moulaison, 2007 George Lindbeck once characterized postliberalism which received its initial structure from his book The Nature of Doctrine as an attempt to recover pre modern scriptural

interpretation in contemporary form In *Lord Giver of Life Toward a Pneumatological Complement to George Lindbeck's Theory of Doctrine* Jane Barter Moulaison explores the success of that effort through a close examination of Lindbeck's own theological contributions Taking seriously the ecumenical promises of Lindbeck's writing he was instrumental in advancing Lutheran and Roman Catholic dialogue throughout the 1960s 70s and 80s this book brings Lindbeck's famous cultural linguistic model of religion into dialogue with Christianity's theological forbearers specifically the Eastern progenitors of orthodox confession This constellation of theological voices Lindbeck his supporters and detractors along with patristic theologians is meant not only to test the viability of a religious model but more importantly to advance Lindbeck's project in ways that have not yet been pursued Among the critical questions engaged are to what degree can the excesses of modern theology be overcome by a return to premodern sources What are the implications of a constructive pneumatology to the cultural linguistic model Does this complement address the critiques of postliberalism particularly those that consider the role of human agency rationality and autonomy While Lindbeck recovers significant and forgotten elements of premodern biblical interpretation the very formalism of his project sometimes obscures the theological underpinnings of premodern insights and practices Through specific attention to Eastern Trinitarian theologies of the fourth century this book exposes a rather persistent oversight within Lindbeck's recovery namely that alongside the regulative function of canon and doctrine early biblical interpretation recognizes the role of the Holy Spirit in the appropriation of scripture in the mission of the church and in the defence of the gospel within the context of an unbelieving world This book attends to these insights from the early church's doctrine of the Holy Spirit in appreciative service to the cultural linguistic model of religion

Women in God's Army Andrew Mark Eason, 2009-10-22 The early Salvation Army professed its commitment to sexual equality in ministry and leadership In fact its founding constitution proclaimed women had the right to preach and hold any office in the organization But did they *Women in God's Army* is the first study of its kind devoted to the critical analysis of this central claim It traces the extent to which this egalitarian ideal was realized in the private and public lives of first and second generation female Salvationists in Britain and argues that the Salvation Army was found wanting in its overall commitment to women's equality with men Bold pronouncements were not matched by actual practice in the home or in public ministry Andrew Mark Eason traces the nature of these discrepancies as well as the Victorian and evangelical factors that lay behind them He demonstrates how Salvationists often assigned roles and responsibilities on the basis of gender rather than equality and the ways in which these discriminatory practices were supported by a male defined theology and authority He views this story from a number of angles including historical gender and feminist theology ensuring it will be of interest to a wide spectrum of readers Salvationists themselves will appreciate the light it sheds on recent debates Ultimately however anyone who wants to learn more about the human struggle for equality will find this book enlightening
