Sociological Inquiry, 1962 **Sociological Inquiry** Kooros M. Mahmoudi, 1997-01-01 Sociological Inquiry Kooros M. Mahmoudi, Bradley W. Parlin, 2004-08-20 Society and Nature Hans Kelsen, 2014-05-22 First published in 1998 This is Volume XIV of eighteen in the Sociology of Behaviour and Psychology series This text is concerned with sociological inquiry into society and nature Written in 1946 it investigates the idea that society and nature if conceived of as two different systems of elements are the results of two different methods of thinking and are only as such two different objects The same elements connected with each other according to the principle of causality constitute nature connected with each other according to another namely a normative principle they constitute society **Sociological Inquiry** Kooros M. Mahmoudi, 1987 **Rethinking Social Inquiry** Henry E. Brady, David Collier, 2010-09-16 With innovative new chapters on process tracing regression analysis and natural experiments the second edition of Rethinking Social Inquiry further extends the reach of this path breaking book The original debate with King Keohane and Verba now updated remains central to the volume and the new material illuminates evolving discussions of essential methodological tools Thus process tracing is often invoked as fundamental to qualitative analysis but is rarely applied with precision Pitfalls of regression analysis are sometimes noted but often are inadequately examined And the complex assumptions and trade offs of natural experiments are poorly understood The second edition extends the methodological horizon through exploring these critical tools A distinctive feature of this edition is the online placement of four chapters from the prior edition all focused on the dialogue with King Keohane and Verba **Sociological Inquiry** Kooros M. Mahmoudi, Bradley W. Parlin, 1981 **Sociological Inquiry** Kooros M. Mahmoudi, Bradley W. Parlin, Marty E. Zusman, 1991-01-01 *What Is a Case?* Charles C. Ragin, Howard Saul Becker, 1992-07-31 The concept of the case is a basic feature of social science research and yet many questions about how a case should be defined selected and judged are far from settled The contributors to this volume probe the nature of the case and the ways in which different understandings of the concept affect the conduct and the results of research The contributions demonstrate that the work of any given researcher is often characterised by some hybrid of these basic approaches and it is important to understand that most research involves multiple definitions and uses of cases as both specific empirical phenomena and as general theoretical categories **Methodology and Meanings** George V. Zito, 1975 USA Textbook introducing the social research methodology research methods of sociology covers methods of content analysis survey research participant observation historiographic research taxonomic construction etc References
