

Sociology Exam 3 Study Notes

Social Stratification

- Hierarchical arrangement of social groups based on their control over basic resources
- Creates persistent patterns of "social inequality" perpetuated by the way in which wealth, power, and prestige are distributed and passed on from one generation to the next ○ Wealth, Power and Prestige are the 3 scarce resources that social stratification is based on
- Basic Principles ○ A trait of society, not just individual differences
 - Persists over generations... Social Mobility is a change in a person's position in the hierarchy
 - Is universal, but variable regarding amount and type of inequality ○ Involves inequality and beliefs of fairness

Social Mobility

- The extent to which members of a society can change their socio-economic position ○ Socio-Economic Position is one's position on the hierarchy ○ You can move up and down the ladder
- Horizontal Mobility: gain or loss in position or income which does not produce change in one's rank ○ Ex. professor to statistician for Stats Canada
- Vertical Mobility: gain or loss in position that produces a change in one's place in the socioeconomic hierarchy ○ Upward or Downward (ex. Uni Degree → high paying job, Uni prof is fired → goes homeless)
- Intragenerational Mobility (within) : change in social position during one person's lifetime
- Intergenerational Mobility (between): upward or downward movement that takes place across generations within a family

Theoretical Approaches to Social Stratification

Functionalism

- Meritocracy: system of stratification based on personal merit (personal choice) ○ Status is earned over level playing field
- Society rewards jobs differently: the more "important" the greater the reward ○ Social inequality is essential because we work hard to get ahead
 - David & Moore Thesis: "the greater talent required to do a job, the more reward society will give them" → Critique:
 - Do rewards reflect importance to society? ○ How is importance measured? ○ How is this system maintained?

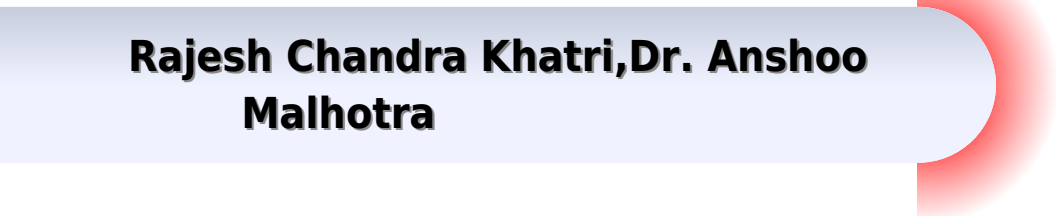

Conflict Theory

Created and maintained by dominant group to benefit themselves

- Social Reproduction: born into a class, die in class
