Socratic Satire An Essay On Diderot And Le Neveu De Rameau:

Socratic Satire Stephen Werner, 1987 Living Words Terence J. Martin, 1998 In particular Martin commends the habit of critical thinking an appreciation for irony and an irenic approach to opposition as helpful stances for improving people's efforts to talk about religion In addressing rhetorical and hermeneutical issues commonly found in philosophical theology and the philosophy of religion this work's approach through the genre of dialogue will interest those concerned with the intersection of religion and literature Blueprint Stephen Werner, 1993 The 2 569 engraved plates of the Encyclopedie are as central to its meaning as the articles or cross references themselves Plates change the discourse of encyclopedisme through a novel collaborative effort of written texts and pictures With vignettes of Paris as their backdrop they endorse an aesthetic of urban merveilleux Ultimately they rewrite the encyclopedia genre The Encyclopedie is far more than a traditional illustrated reference work it is a modern pictorial encyclopedia Its visionary or blueprint qualities are unique and were conceived by Diderot the chief sponsor and architect of the plates This work is richly illustrated with reproductions of the original plates An exhaustive bibliography adds to the functional nature of this study Un petit livre tres excitant Dix huitieme Siecle this study is a fruitful examination of the Encyclopedie as an indisputable coherent fusion of the textual and the pictorial It points the way to further investigation of what still remains a largely unexplored labyrinth of Enlightenment ideologies values and concerns British Journal of Eighteenth Century Studies **The Comic Philosophes** Stephen Werner, 2002 This work is a study of philosophe fiction through comic irony that is its unifying feature Readings are offered of exemplary philosophe narratives from Les Lettres persanes to Candide Le Neveu de Rameau to Justine as well as an analysis of the evolution of irony from the classical world of Montesquieu and Voltaire to the modern and subversive conceptions of Diderot and Sade Professor Werner argues for a new understanding of comic irony as inseparable from the philosophe aesthetic and through Sade an expansion of its usual canon of authors **Fiction and the Philosophy of Happiness** Brian Michael Norton, 2012-09-28 Fiction and the Philosophy of Happiness explores the novel's participation in eighteenth century inquiries after happiness an ancient ethical project that acquired new urgency with the rise of subjective models of wellbeing in early modern and Enlightenment Europe Combining archival research on treatises on happiness with illuminating readings of Samuel Johnson Laurence Sterne Denis Diderot Jean Jacques Rousseau William Godwin and Mary Hays Brian Michael Norton's innovative study asks us to see the novel itself as a key instrument of Enlightenment ethics His central argument is that the novel form provided a uniquely valuable tool for thinking about the nature and challenges of modern happiness whereas treatises sought to theorize the conditions that made happiness possible in general eighteenth century fiction excelled at interrogating the problem on the level of the particular in the details of a single individual's psychology and unique circumstances Fiction and the Philosophy of Happiness demonstrates further that through their fine tuned attention to subjectivity and social context these writers called into question some cherished and time honored

assumptions about the good life happiness is in one's power virtue is the exclusive path to happiness only vice can make us miserable This elegant and richly interdisciplinary book offers a new understanding of the cultural work the eighteenth century novel performed as well as an original interpretation of the Enlightenment's ethical legacy

The Progressive Poetics of Confusion in the French Enlightenment John C. O'Neal, 2011-03-14 In *The Progressive Poetics of Confusion in the French Enlightenment* John C. O'Neal draws largely on the etymological meaning of the word confusion as the action of mixing or blending in order to trace the development of this project which he claims aimed to reject dogmatic thinking in all of its forms and recognized the need to embrace complexity Eighteenth century thinkers used the notion of confusion in a progressive way to reorganize social classes literary forms metaphysical substances scientific methods and cultural categories such as taste and gender In this new work O'Neal explores some of the paradoxes of the Enlightenment's theories of knowledge Each of the chapters in this book attempts to address the questions raised by the eighteenth century's particular approach to confusion as a paradoxical reorganizing principle for the period's progressive agenda Perhaps the most paradoxical thinker of his times Diderot occupies a central place in this study of confusion Other authors include Marivaux Crillon Voltaire and Pinel among others Rousseau and Sade serve as counterexamples to this kind of enlightenment but ultimately do not so much oppose the period's poetics of confusion as they complement it The final chapter on Sade combines contemporary discussions of politics society culture philosophy and science in an encyclopedic way that at once reflects the entire period's tendencies and establishes important differences between Sade's thinking and that of the mainstream philosophies Ultimately confusion serves O'Neal argues as an overarching positive notion for the Enlightenment and its progressive ideals

Originality and Intellectual Property in the French and English Enlightenment Reginald McGinnis, 2013-10-17 Are legal concepts of intellectual property and copyright related to artistic notions of invention and originality Do literary and legal scholars have anything to learn from each other or should the legal debate be viewed as separate from questions of aesthetics Bridging what are usually perceived as two distinct areas of inquiry this interdisciplinary volume begins with a reflection on the origins of literary and legal questions in the Enlightenment to consider their ramifications in the post Enlightenment and contemporary world Tying in to the growing scholarly interest in connections between law and literature on the one hand and to the contemporary interrogation of originality and authorship on the other hand the present volume furthers research in the field by providing a dense study of the legal and historical context to re-examine our current assumptions about supposed earlier Enlightenment and Romantic ideals of individual authorship and originality

Globalizing Literary Genres Jernej Habjan, Fabienne Imlinger, 2015-10-14 Focused on the relation between processes of globalization and literary genres this volume intervenes in the prevalent notions of globalization literary history genre and the novel Using both close reading and world history both literary criticism and political theory the book is a timely

intervention in the debates about world postcolonial and transnational literature as they have been intensified by critical globalization studies world systems analysis Bourdieuan sociology and cosmopolitanism studies It contends that globalization far from starting in recent decades has a long and complex history not unlike the history of literature itself meaning that when we speak of globalization and literature we in effect invoke the entire history of literature Essays examine literary genres in relation to broader historical processes connecting the present state of globalization to such key world historic events as the early modern geographical and scientific explorations the Enlightenment the expansions of modernity in the long nineteenth and twentieth centuries postmodernity and postcoloniality and contemporary counter hegemonic movements The book offers innovative readings of the pastoral from Saint Pierre to Carpentier the novel in Kant and Wieland and in Diderot and Marx travel writing from Verne to Cort zar sports writing in James and Kahn entrelacement in Bola o Ghosh and Soderbergh and also the Mozambican ghost story Indian genre fiction fake autobiographies Sephardic language memoirs the postcolonial Gothic Irish chick lit and counter hegemonic novels Making important theoretical contributions to a renewed discussion about genre especially genres of narrative fiction this volume addresses global studies the history of the novel and debates over periodization and nationalism in literary history **Temperament** Stuart Isacoff, 2009-01-16 Few music lovers realize that the arrangement of notes on today s pianos was once regarded as a crime against God and nature or that such legendary thinkers as Pythagoras Plato da Vinci Galileo Kepler Descartes Newton and Rousseau played a role in the controversy Indeed from the time of the Ancient Greeks through the eras of Renaissance scientists and Enlightenment philosophers the relationship between the notes of the musical scale was seen as a key to the very nature of the universe In this engaging and accessible account Stuart Isacoff leads us through the battles over that scale placing them in the context of quarrels in the worlds of art philosophy religion politics and science The contentious adoption of the modern tuning system known as equal temperament called into question beliefs that had lasted nearly two millenia and also made possible the music of Beethoven Schubert Chopin Debussy and all who followed Filled with original insights fascinating anecdotes and portraits of some of the greatest geniuses of all time Temperament is that rare book that will delight the novice and expert alike Literature Criticism from 1400 to 1800 ,2006 **The French Review** James Frederick Mason, Hélène Harvitt, 1988
