The Soft Revolution Neil Postman, Charles Weingartner, 1971 *The soft revolution* Neil Postman, 1971 *The Soft Revolution* Neil Postman, Charles Weingartner, 1971 **The Change Agent's Guide to Innovation in Education** Ronald G. Havelock, 1973 **The Socially Just School** John Smyth, Barry Down, Peter McInerney, 2014-07-08 This book explores schools and how they can function as social institutions that advance the interests and life chances of all young people especially those who are already the most marginalized and at an educational disadvantage Social justice is a key theme as the book examines the needs of youth the concept of school culture school community relations socially critical pedagogy curriculum and leadership and a socially critical approach to work The Socially Just School is based upon four decades of intensive writing and researching of young lives This work presents an alternative to the damaging school reform in which schools are made to serve the interests of the economy education systems the military corporate or national interests Readers will discover the hallmarks of socially just schools They educationally engage young people regardless of class race family or neighbourhood location and they engage them around their own educational aspirations They regard all young people as being morally entitled to a rewarding and satisfying experience of school not only those whose backgrounds happen to fit with the values of schools They treat young people as having strengths and being at promise rather than being at risk and with deficits or as bundles of pathologies to be remedied or fixed They are active listeners to the lives and cultures of their students and communities and they construct learning experiences that are embedded in young lives This highly readable book will appeal to students and scholars in education and sociology as well as to teachers and school administrators with an interest in social justice *Shame the Devil* Wayne J. Guglielmo, 2023-04-15 When the press loses sight of truth and falls prey to bias American press critics push back to safeguard our free and democratic nation Journalists are no strangers to criticism and some have even seen disagreements turn to outrage and acts of violence There is another history of press criticism though This one as a rule doesn't resort to physical threat or denunciation Nevertheless it can be merciless when critics think the press has become too slanted in one direction has fallen short of some ideal is too concentrated for its own good or seems to be underreporting or ignoring some critical story of the day Shame the Devil is a sweeping look at this other history Beginning with Walter Lippmann rightly regarded as the first modern press critic Shame the Devil provides a chapter by chapter profile and analysis of his successors Many critics work within the profession of journalism while some consider it from the outside These include George Seldes A J Liebling Ben Bagdikian Reed Irvine Neil Postman and Noam Chomsky A concluding chapter brings together a diverse group of contemporary critics including Sharyl Attkisson Brooke Gladstone Eric Deggans Amy Goodman Janine Jackson and Candace Owens Merging history biography and a candid analysis of various critical points of view Shame the Devil moves from press commentary in the bitter aftermath of World War I to the head spinning paradoxes of the post truth era Throughout some of America's best critics contend with

both the big events of their day and the big issues of journalism to ask the always vital question How can the press help to create and sustain a more democratic society Summary of Major Legislative Action of the Committee on Education and Labor, U.S. House of Representatives, 92d Congress ,1973 **Alternative Futures in American Education** ,1972

Students As Real People Rob Anderson,1979-01-01 A teacher of communication expresses his concern for thousands of students who are cheating themselves out of a worthwhile education by falling into the accepted role of nonperson uninvolved in the education process In this book the author fosters a belief that success or failure in college depends on communication interdependent efforts of people in a relationship to generate common meaning He proposes to get students to realize that their education is something other students can help them develop as much as teachers The author uses a personal style of writing to talk with the students He uses examples from the students immediate campus environment in challenging them to question their roles in the educational process Written for and tested in interpersonal communication courses the book is also appropriate for teacher education courses orientation to college life courses and for college counseling centers **Information Theory** , **Against Immediacy** William Kaizen,2016-07-05 Against Immediacy is a history of early video art considered in relation to television in the United States during the 1960s and 1970s It examines how artists questioned the ways in which the people were ideologically figured by the commercial mass media During this time artists and organizations including Nam June Paik Juan Downey and the Women s Video News Service challenged the existing limits of the one to many model of televisual broadcasting while simultaneously constructing more democratic bottom up models in which the people mediated themselves Operating at the intersection between art history and media studies Against Immediacy connects early video art and the rise of the media screen in gallery based art to discussions about participation and the activation of the spectator in art and electronic media moving from video art as an early form of democratic media practice to its canonization as a form of high art *The Oxford Handbook of Digital Religion*

Division of Youth Activities,1977 **Critical Issues in Democratic Schooling** Kenneth Teitelbaum,2020-04-28 Focusing on a wide range of critical issues this book provides a comprehensive analysis of the linkage of different educational ideas policies and practices to a commitment for democratic schooling Informed by significant interdisciplinary research as well as by his own extensive professional experiences as a teacher professor department chair and dean Teitelbaum examines contemporary concerns related to three broad areas 1 teaching and teacher education 2 curriculum studies and 3 multiculturalism and social justice His approach is to integrate the current and the historical the practical and the theoretical the technical and the socio political and the personal and the structural With this volume Teitelbaum considers how schools should be organized and funded what they should teach and to whom the role that teachers students and parents should play in school life and the need and prospects for schools and teacher education programs that foster meaningful learning critical reflection and social justice Critical Pedagogy for Social Justice John Smyth,2011-10-20 We live in a time when those who wield unrestrained power believe they have the inalienable right to

determine the destiny nature and shape of social institutions like schools Critical Pedagogy for Social Justice challenges this arrogance by showing how teachers students parents communities and researchers can develop narratives that amount to working with and for those who are increasingly being silenced marginalized and excluded John Smyth sets out to revisit critical pedagogy from a number of key leverage points The overarching aim of this book is to unmask the deforming and distorting way power operates while at the same time revealing how a commitment to a more socially just world can exist in the everyday lives and narratives of people who have a passion for transformative possibilities His clear concise and persuasive book is ideal for those who are dissatisfied with the current turn in education and who are seeking an alternative set of views that emerge from the grounded experiences and practices ion schools struggling with the most disadvantaged circumstances

Radicalizing Educational Leadership Ira Bogotch,Floyd Beachum,Jackie Blount,Jeffrey Brooks,Fenwick English,2008-01-01 What you will find inside this provocative text It should come as no surprise as the collection of papers in this book show that we are up against it Killing those we despise has become normative in the political minds of both the powerful and the marginalised Framing those who are weakest as the architects of their own disgusting state it has become commonsense in all societies rich and poor Any counter hegemonic project that seeks to rethink social justice and reframe educational leadership is without question confronting the enormous power of ordinariness the commonsense about power inequality and violence Jonathan Jansen By virtue of an institutionalized hegemony the formal scales of social justice are informally tipped in favor of the haves leaving the have nots at a distinct disadvantage and often powerless and defenseless to effect change for themselves or others How do these critical perspectives change our vision of public schools and of educational leadership Suddenly new dynamics emerge race matters gender matters sexual orientation matters ethnicity matters class matters power matters money matters agency matters etc Jeffrey Brooks Historical research is one important way that individuals can heighten their awareness of their own conditions It can inspire understanding that compels social justice leadership on account of one s status It can assist potential allies in learning how their own lived experiences of oppression might translate to persons experiencing subjugation along other social dimensions It can accomplish these ends by provoking us to ask better questions to understand larger patterns more deeply and to find inspiration in the infinitely varied stories of human frailty and courage Jackie Blount To illustrate social injustice we have to look backwards But our graduates are not going to work in the past So it isn t enough to work to undo socially unjust practices The more complex question surrounding making social justice a thematic anchor and connector of an educational leadership program is the requirement to create within a theoretical framework in which the effects of a curriculum can be empirically assessed and which can serve as an holistic and heuristic model by which graduate students can engage in a gestalt view approach to leading schools and school systems in very different directions than before Fenwick English
