Artists' SoHo Richard Kostelanetz, 2015-01-02 During the 1960s and 1970s in New York City young artists exploited an industrial wasteland to create spacious studios where they lived and worked redefining the Manhattan area just south of Houston Street Its use fueled not by city planning schemes but by

word of mouth recommendations the area soon grew to become a world class center for artistic creation indeed the largest urban artists colony ever in America let alone the world Richard Kostelanetz's *Artists SoHo* not only examines why the artists came and how they accomplished what they did but also delves into the lives and works of some of the most creative personalities who lived there during that period including Nam June Paik Robert Wilson Meredith Monk Richard Foreman Hannah Wilke George Macuin and Alan Suicide Gallerists followed the artists in fashioning themselves their homes their buildings and even their streets into transiently prominent exhibition and performance spaces SoHo pioneer Richard Kostelanetz's extensively researched intimate history is framed within a personal memoir that unearths myriad perspectives social and cultural history the changing rules for residency and ownership the ethos of the community the physical layouts of the lofts the types of art produced venues that opened and closed the daily rhythm and the gradual invasion of new people *Artists SoHo* also explores how and why this fertile bohemia couldn't last forever As wealthier people paid higher prices galleries left younger artists settled elsewhere and the neighborhood became a SoHo Mall of trendy stores and restaurants Compelling and often humorous *Artists SoHo* provides an analysis of a remarkable neighborhood that transformed the art and culture of New York City over the past five decades

The Lofts of SoHo Aaron Shkuda, 2016-04-18 A groundbreaking look at the transformation of SoHo American cities entered a new phase when beginning in the 1950s artists and developers looked upon a decaying industrial zone in Lower Manhattan and saw not blight but opportunity cheap rents lax regulation and wide open spaces Thus SoHo was born From 1960 to 1980 residents transformed the industrial neighborhood into an artist district creating the conditions under which it evolved into an upper income gentrified area Introducing the idea still potent in city planning today that art could be harnessed to drive municipal prosperity SoHo was the forerunner of gentrified districts in cities nationwide spawning the notion of the creative class In *The Lofts of SoHo* Aaron Shkuda studies the transition of the district from industrial space to artists enclave to affluent residential area focusing on the legacy of urban renewal in and around SoHo and the growth of artist led redevelopment Shkuda explores conflicts between residents and property owners and analyzes the city's embrace of the once illegal loft conversion as an urban development strategy As Shkuda explains artists eventually lost control of SoHo's development but over several decades they nonetheless forced scholars policymakers and the general public to take them seriously as critical actors in the twentieth century American city

six archetypal New York areas Williamsburg Harlem the East Village Union Square Red Hook and the city's community gardens and shows that for followers of Jane Jacobs this transformation is a perversion of what was supposed to happen
