The Oxford Handbook of Jewishness and Dance Naomi M. Jackson, Rebecca Pappas, Toni Samantha Phim, 2022 Focusing on North America Europe and Israel in the twentieth and twenty first centuries this Handbook highlights the

sometimes surprising often hidden and overlooked Jewish resonances within a range of styles from modern and postmodern dance to folk dance and flamenco Shadow Songs Dancing Leonard J. Griego, 2001-12-07 This is a book of poetry a book about one man's fantasy Poetry comes in many guises and is inspired by untold things events and people As with many people I have had many experiences and some of them I wonder where the hell they came from Those experiences have been the inspiration for much of what I have written I have traveled all over the world and have met many wondrous people and they have been part of my inspiration My love poems came in flashes some days and some days I agonized over a poem for long periods of time My relationships with women have been a disaster to say the least and I think the Creator gave me fantasy so I wouldn't despair too much Somewhere I was fortunate to glimpse to be with to touch however briefly beauty and grace intelligence and style innate kindness and humor in a woman That was my inspiration for my love poems Never mind that none of it worked out I am eternally optimistic that somewhere that lady with the Celadon eyes will be waiting

Publications of the Folk-lore Society Folk-lore Society, 1914 *The Handbook of Folklore* Charlotte Sophia Burne, 1914 Publications of the Folk-lore Society, 1913 *Two Lenses on the Korean Ethos* Keum-sil Kim Yoon, Bruce Williams, 2015-01-24 A war torn country only 60 years ago South Korea has since achieved prodigious growth and global integration experiencing rapid industrialization and seeing its cultural exports gain international popularity Because of this rapid transformation an investigation of the Korean ethos the shared self concept woven through the divergent social contexts of both South and North Korea is challenging This book provides an introduction to the Korean ethos detailing its representation in key cultural words and in film Part I explores definitive concepts terms generally regarded as difficult to translate such as han regret jeong feeling and deok virtue and how they are expressed in Korean cinema Part II analyzes film narratives based on these concepts via close readings of 13 films including three from North Korea Other Destinies Louis Owens, 1994 This first book length critical analysis of the full range of novels written between 1854 and today by American Indian authors takes as its theme the search for self discovery and cultural recovery In his introduction Louis Owens places the novels in context by considering their relationships to traditional American Indian oral literature as well as their differences from mainstream Euroamerican literature In the following chapters he looks at the novels of John Rollin Ridge Mourning Dove John Joseph Mathews D Arcy McNickle N Scott Momaday James Welch Leslie Marmon Silko Louise Erdrich Michael Dorris and Gerald Vizenor These authors are mixedbloods who in their writing try to come to terms with the marginalization both of mixed bloods and fullbloods and of their cultures in American society Their novels are complex and sophisticated narratives of cultural survival and survival guides for fullbloods and mixedbloods in modern America Rejecting the stereotypes and cliches long attached to the word Indian they appropriate and adapt the colonizers language English to describe the Indian experience These novels embody the American Indian point of view the non Indian is required to assume the role of other In his analysis Owens draws on a broad range of literary theory myth and folklore structuralism modernism

poststructuralism and particularly postmodernism At the same time he argues that although recent American Indian fiction incorporates a number of significant elements often identified with postmodern writing it contradicts the primary impulse of postmodernism That is instead of celebrating fragmentation ephemerality and chaos these authors insist upon a cultural center that is intact and recoverable upon immutable values and ecological truths Other Destinies provides a new critical approach to novels by American Indians It also offers a comprehensive introduction to the novels helping teachers bring this important fiction to the classroom

The Wireless Past Emily C. Bloom, 2016 Emily Bloom chronicles the emergence of the British Broadcasting Corporation as a significant promotional platform and aesthetic influence for Irish modernism from the 1930s to the 1960s She situates the works of W B Yeats Elizabeth Bowen Louis MacNeice and Samuel Beckett in the context of the media environments that shaped their works

The Poster Ruth E. Iskin, 2014-10-07 *The Poster* Art Advertising Design and Collecting 1860s 1900s is a cultural history that situates the poster at the crossroads of art design advertising and collecting Though international in scope the book focuses especially on France and England Ruth E Iskin argues that the avant garde poster and the original art print played an important role in the development of a modernist language of art in the 1890s as well as in the adaptation of art to an era of mass media She moreover contends that this new form of visual communication fundamentally redefined

relations between word and image poster designers embedded words within the graphic rather than using images to illustrate a text Posters had to function as effective advertising in the hectic environment of the urban street Even though initially commissioned as advertisements they were soon coveted by collectors Iskin introduces readers to the late nineteenth century iconophile a new type of collector curator archivist who discovered in poster collecting an ephemeral archaeology of modernity Bridging the separation between the fields of art design advertising and collecting Iskin s insightful study proposes that the poster played a constitutive role in the modern culture of spectacle This stunningly illustrated book will appeal to art historians and students of visual culture as well as social and cultural history media design and advertising

Deleuze and the Gynesis of Horror Sunny Hawkins, 2020-10-01 Applying Deleuze s schizoanalytic techniques to film theory Deleuze and the Gynesis of Horror demonstrates how an embodied approach to horror film analysis can help us understand how film affects its viewers and distinguish those films which reify static hegemonic molar beings from those which prompt fluid nonbinary molecular becomings It does so by analyzing the politics of reproduction in contemporary films such as Ex Machina Mary Shelley s Frankenstein Mad Max Fury Road the Twilight saga and the original Alien quadrilogy and its more recent prequels Prometheus and Alien Covenant Author Sunny Hawkins argues that films which promote a monstrous philosophy of qualitative affirmative difference as difference in itself and which tend to be more molecular than molar in their expressions can help us trace a line of flight from the gender binary in the real world Deleuze and the Gynesis of Horror demonstrates how the techniques of horror film editing sound and visual effects lighting and colour camera movement work in tandem with a film s content to affect the viewer s body in ways that disrupt the sense of self as a whole unified subject with a stable monolithic identity and in some cases can serve to breakdown the binary between self Other as we come to realize that we are none of us static categorizable beings but are as Henri Bergson said living things constantly becoming
