Story Of Biochemistry:

The Chemistry of Life Joseph Needham, 1970-04 This assembly of lectures should appeal to anyone with an interest in the history of science and the nature of living things Seven of the eight lectures are by eminent biochemists and describe the development of their own subject from the inside the eighth is a more general one *A History of Biochemistry* Marcel Florkin, 1975-01-01 A History of Biochemistry **A History of Biochemistry** Marcel Florkin, 1972 *Selected Topics in the History of Biochemistry* G. Semenza, A.J. Turner, 2003-04-01 This book is the latest volume in a highly successful series within Comprehensive Biochemistry and provides a historical and autobiographical perspective of the development of the field through the contributions of leading individuals who reflect on their careers and their impact on biochemistry The book is essential reading for everybody from graduate student to professor placing in context major advances not only in biochemical terms but in relation to historical and social developments Readers will be delighted by the lively style and the insight into the lives and careers of leading scientists of their time *Selected Topics in the History of Biochemistry. Personal Recollections. IV* G. Semenza, E.C. Slater, R. Jaenicke, 2012-12-02 The editors invited selected authors who had participated in or observed developments in biochemistry and molecular biology particularly in the second half of this century to record their personal recollections of the times and circumstances in which they worked Having been given free reign both content and style of the contributions reflect the flavour of the personality of the author The book reflects the explosive development of biochemistry and molecular biology and related sciences that had led to the almost unique situation of these fields coming of age at a time when their founding fathers or their scientific children were alive and well The contributions in this volume encompass a wide variety of experiences in many different countries and in very different fields of biochemistry **Selected Topics in the History of Biochemistry. Personal Recollections. Part III** G. Semenza, R. Jaenicke, 2012-12-02 As in Volumes 35 and 36 the chapters in this new volume complement with personal recollections the History of Biochemistry that was covered in the Comprehensive Biochemistry Series Volumes 30-33 by M Florkin and Volume 34A by P Laszlo The biographical and autobiographical chapters will convey to the reader a lively albeit at times subjective view of the scientific and social environment in which the authors have worked resulting in new concepts and theories on the biological sciences **The Chemistry of Life** Robert Hill, 1970 *The Story of Biochemistry* Justine Glass, 1964

Emperor Of Enzymes: A Biography Of Arthur Kornberg, Biochemist And Nobel Laureate Errol C Friedberg, 2016-05-18 This book chronicles the life and work of the late Arthur Kornberg one of the premier biochemists in the world who discovered the enzyme DNA polymerase a key enzyme required for the biosynthesis of DNA The book provides readers with a view of the personality and character of one of the great biochemists of the late 20th century as well as insights into the origin and growth of the discipline of nucleic acid biochemistry especially the biosynthesis of DNA The book consists of 17 chapters that trace the life and work of Arthur Kornberg **The Story of Biochemistry** Alice Enid
