A History of Ancient Egypt, Volume 3 John Romer,2023-05-25 The final chapter in the definitive three volume history of the world s first known state Archaeologist John Romer has spent a lifetime chronicling the history of Ancient Egypt and here he tells the epic story of an era dominated by titans of the popular imagination the radical iconoclast Akhenaten the boy king Tutankhamun and the all conquering Ramesses II But heroes do not forge history by themselves This was also a time of international trade cultural exchange and sophisticated art even in the face of violent change Alongside his visionary new history of this the most famous period in the long history of Ancient Egypt Romer turns a critical eye on Egyptology itself Paying close attention to the evidence he corrects prevailing narratives which cast the New Kingdom as an imperial state power in the European mould Instead he reveals through broken artefacts in ruined workshops or preserved letters between a tomb builder and his son a culture more beautiful and beguiling than we could have imagined Romer carefully reconstructs the real story of the New Kingdom as evidenced in the archaeological record and the result the final volume of a life long project secures his status as Ancient Egypt s finest chronicler Horticulture: Plants for People and Places, Volume 3

The Imagination of Plants Matthew Hall,2019-01-01 Examines the role of plants in botanical mythology from Aboriginal Australia to Zoroastrian Persia Plants have a remarkable mythology dating back thousands of years From the ancient Greeks to contemporary Indigenous cultures human beings have told colorful and enriching stories that have presented plants as sensitive communicative and intelligent This book explores the myriad of plant tales from around the world and the groundbreaking ideas that underpin them Amid the key themes of sentience and kinship it connects the

anemone to the meaning of human life tree hugging to the sacred basil of India and plant intelligence with the Finnish epic The Kalevala Bringing together commentary original source material and colorful illustrations Matthew Hall challenges our perspective on these myths the plants they feature and the human beings that narrate them Whether or not we believe that any plant actually has an imagination the rhetorical flourish in Matthew Hall's title sends us into his book with a serious interest in what he has to say This is a valuable addition to our knowledge about mythic tale telling and awareness of those elements of the animate world that science since the Renaissance has always placed on the lowest scale of value Hall wants to redress this imbalance and he does so by revealing just how essential to Indigenous cultures the plant kingdom was to humanity's place in the universe Ashton Nichols author of Beyond Romantic Ecocriticism Toward Urbanatural Roosting
