Storytelling In Emergent Literacy:

Storytelling in Early Childhood Teresa Cremin, Rosie Flewitt, Ben Mardell, Joan Swann, 2016-12-08 Storytelling in Early Childhood is a captivating book which explores the multiple dimensions of storytelling and story acting and shows how they enrich language and literacy learning in the early years. Foregrounding the power of children's own stories in the early and primary years, it provides evidence that storytelling and story acting a pedagogic approach first developed by Vivian Gussin Paley affords rich opportunities to foster learning within a play-based and language-rich curriculum. The book explores a number of themes and topics including the role of imaginary play and its dynamic relationship to narrative, how socially situated symbolic actions enrich the emotional, cognitive and social development of children, how the interrelated practices of storytelling and dramatisation enhance language and literacy learning and contribute to an inclusive classroom culture, the challenges practitioners face in aligning their understanding of child literacy and learning with a narrow mandated curriculum which focuses on measurable outcomes. Driven by an international approach and based on new empirical studies, this volume further advances the field offering new theoretical and practical analyses of storytelling and story acting from complementary disciplinary perspectives. This book is a potent and engaging read for anyone intrigued by Paley's storytelling and story acting curriculum as well as those practitioners and students with a vested interest in early years literacy and language learning. With contributions from Vivian Gussin Paley, Patricia Patsy Cooper, Dorothy Faulkner, Natalia Kucirkova, Gillian Dowley, McNamee and Ageliki Nicolopoulou. **Storytelling in Emergent Literacy** Susan Louise

Trostle-Brand, Jeanne M. Donato, 2001 For use with Storytelling in Emergent Literacy videos. The book is organized by themes around the calendar and is useful for developing effective storytelling skills. Sharing Books and Stories to Promote

Language and Literacy Anne van Kleeck, 2006-11 The role of parent-child and teacher-child shared story telling and storybook reading is a key vehicle for supporting children's development of emergent literacy and early language skills. This highly usable and practical book brings the advantages of sharing books and stories to educational and clinical settings, effectively demonstrating how it may be used to support print knowledge, phonological awareness, vocabulary, inferential language abilities, grammatical and narrative skills. With contributions from notable scholars who actively conduct research in the areas of education, developmental psychology, speech language pathology, reading and early literacy, this unique resource synthesizes and applies current theory and research on uses of sharing books and stories in educational and intervention contexts. **Early Literacy Storytimes @ Your Library®** Saroj Nadkarni Ghoting, Pamela Martin-Diaz, 2006 Provides practical strategies for developing children's early literacy skills and contains information on phonological awareness, vocabulary, narrative skills and more.
