Colonialism and Its Forms of Knowledge Bernard S. Cohn,2021-05-11 Bernard Cohn's interest in the construction of Empire as an intellectual and cultural phenomenon has set the agenda for the academic study of modern Indian culture for over two decades His earlier publications have shown how dramatic British innovations in India including revenue and legal systems led to fundamental structural changes in Indian social relations This collection of his writings in the last fifteen years discusses areas in which the colonial impact has generally been overlooked The essays form a multifaceted exploration of the ways in which the British discovery collection and codification of information about Indian society contributed to colonial cultural hegemony and political control Cohn argues that the British Orientalists study of Indian languages was important to the colonial project of control and command He also asserts that an arena of colonial power that seemed most benign and most susceptible to indigenous influences mostly law in fact became responsible for the institutional reactivation of peculiarly British notions about how to regulate a colonial society made up of others He shows how the very Orientalist imagination that led to brilliant antiquarian collections archaeological finds and photographic forays were in fact forms of constructing an India that could be better packaged inferiorized and ruled A final essay on cloth suggests how clothes have been part of the history of both colonialism and anticolonialism

considers the controversy caused by nabobs and the debate regarding British identity and British imperialism in the late eighteenth century

The 17th and 18th Centuries Frank N. Magill,2013-09-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography

European Slave Trading in the Indian Ocean, 1500-1850 Richard B. Allen,2015-01-01 Between 1500 and 1850

European traders shipped hundreds of thousands of African Indian Malagasy and Southeast Asian slaves to ports throughout the Indian Ocean world The activities of the British Dutch French and Portuguese traders who operated in the Indian Ocean demonstrate that European slave trading was not confined largely to the Atlantic but must now be viewed as a truly global phenomenon European slave trading and abolitionism in the Indian Ocean also led to the development of an increasingly integrated movement of slave convict and indentured labor during the late eighteenth and early nineteenth centuries the consequences of which resonated well into the twentieth century Richard B Allen's magisterial work dramatically expands

our understanding of the movement of free and forced labor around the world Drawing upon extensive archival research and a thorough command of published scholarship Allen challenges the modern tendency to view the Indian and Atlantic oceans as self contained units of historical analysis and the attendant failure to understand the ways in which the Indian Ocean and Atlantic worlds have interacted with one another In so doing he offers tantalizing new insights into the origins and dynamics of global labor migration in the modern world History and Power in the Study of Law June Starr,Jane F.
