Strange Likeness:

Strange Likeness Dora Zhang, 2020-11-10 The modern novel so the story goes thinks poorly of mere description what Virginia Woolf called that ugly that clumsy that incongruous tool As a result critics have largely neglected description as a feature of novelistic innovation during the twentieth century Dora Zhang argues that descriptive practices were in fact a crucial site of attention and experimentation for a number of early modernist writers centrally Woolf Henry James and Marcel Proust Description is the novelistic technique charged with establishing a common world but in the early twentieth century there was little agreement about how a common world could be known and represented Zhang argues that the protagonists in her study responded by shifting description away from visualizing objects to revealing relations social formal and experiential between disparate phenomena In addition to shedding new light on some of the best known works of modernism Zhang opens up new ways of thinking about description more broadly She moves us beyond the classic binary of narrate or describe and reinvigorates our thinking about the novel *Strange Likeness* will enliven conversations around narrative theory affect theory philosophy and literature and reading practices in the academy **A Strange Likeness** Paula

Richard King, 2019-03-01 The Washington Redskins franchise remains one of the most valuable in professional sports in part because of its easily recognizable popular and profitable brand And yet redskins is a derogatory name for American Indians Prominent journalists politicians and former players have publicly spoken out against the use of Redskins as the name of the team The number of grassroots campaigns to change the name has risen in recent years despite the current team owner's assertion that the team will never do so The NFL for its part actively defends the name and supports it in court Redskins Insult and Brand examines how the ongoing struggle over the team name raises important questions about how white Americans perceive American Indians about the cultural power of consumer brands and about continuing obstacles to inclusion and equality C Richard King examines the history of the team's name the evolution of the term redskin and the various ways in which people both support and oppose its use today King's hard hitting approach to the team's logo and mascot exposes the disturbing history of a moniker's association with the NFL a multibillion dollar entity that accepts public funds as well as popular attitudes toward Native Americans today **Clanronald. The Unsignificant Three Talks on Poetry and Pictures is a selection of lectures that poet and Griffin Award finalist Srikanth Reddy presented for the Bagley Wright Lecture Series in 2015 True to its title The Unsignificant is concerned with what it s not about not the logical proofs of philosophy but the affective flux of poetry The lectures approach poetry from Homer to Gertrude Stein to Ronald Johnson obliquely refracted through images such as Brueghel s Landscape with Fall of Icarus Hermann Rorschach s inkblots or Galileo s drawings of the moon Ranging from pictorial backgrounds in visual art to portraiture and similes to the poetics of wonder The Unsignificant embarks on an unsystematic errant and eccentric tour of Western poetry and poetics from the ancient world to our continuous present
