Shakespeare S Younger Sister Westminster Review 1898 **The Life-Death Instinct** Neil Maizels, 2023-12-14 Throughout this enlightening collection Neil Maizels considers the helical tandem between the Life Instinct and the Death drive in the light of canonical literary figures like Thomas Hardy Patricia Highsmith Sylvia Plath and Shakespeare classic filmmakers like Hitchcock and contemporary television shows such as Curb Your Enthusiasm The West Wing and Succession This light is filtered through intricate clinical work whereby Maizels seeks to illustrate and expound on the strength and indefatigability of the Life Instinct He makes a case for it as the relentless driver of integration and binding in the ever growing expansive psyche He considers both Freud s original equation of the Life Instinct with Eros and a widening interconnecting love of mankind and Melanie Klein s with gratitude and creative reparation This book is a multi layered presentation of the clinical and theoretical work of Neil Maizels as it has evolved and convolved over several decades It places the feeling through of one s conflicts at the heart of the mind s generation of a unique identity equipped to evolve its own unique form of creative spirit in the face of life s most pressing psychological challenges the limitation of time and reciprocated beauty The Life Death Instinct Feeling Through Creative Clinical Moments is important reading for anyone seeking to expand their knowledge in this fascinating intersection of psychoanalysis and the arts The Brontës in the World of the Arts Sandra Hagan, Juliette Wells, 2016-12-05 Although previous scholarship has acknowledged the importance of the visual arts to the Bront s relatively little attention has been paid to the influence of music theatre and material culture on the siblings lives and literature This interdisciplinary collection presents new research on the Bront s relationship to the wider world of the arts including their relationship to the visual arts The contributors examine the siblings artistic ambitions productions and literary representations of creative work in both amateur and professional realms Also considered are re envisionings of the Bront s works with an emphasis on those created in the artistic media the siblings themselves knew or practiced With essays by scholars who represent the fields of literary studies music art theatre studies and material culture the volume brings together the strongest current research and suggests areas for future work on the Bront s and their cultural contexts

Melanie Klein Today, Volume 2: Mainly Practice Elizabeth Bott Spillius, 2003-09-02 Although both Kleinian psychoanalysts and their critics take it for granted that there is a therapeutic technique distinctive to the Kleinian approach comparatively little has been written about what it is In Melanie Klein Today Volume 2 Elizabeth Bott Spillius brings together classic and new papers to make it possible to understand the main elements of the Kleinian therapeutic technique In recent years there have been important refinements in this technique notably in regard to the balance to be struck in interpreting destructiveness the use of the so called part object language and the precise ways to understand and interpret acting in and the role of the past in the present This collection draws these developments together and makes clear why an integral part of contemporary Kleinian theory and practice is concerned with the careful scrutiny of the therapeutic process itself The volume includes detailed accounts of clinical work with both adults and children and takes further the theoretical ideas

discussed in Melanie Klein Today Volume 1 The papers and the editorial commentary in this book together comprise the most illuminating and coherent rationale for the Kleinian technique yet published The ideas will be of interest to members of many disciplines and a final section includes papers on the application of the Kleinian approach in other fields of work *The Chamber of Maiden Thought (Psychology Revivals)* Meg Harris Williams, Margot Waddell, 2013-11-26 Literature is recognised as having significantly influenced the development of modern psychoanalytic thought In recent years psychoanalysis has drawn increasingly on the literary and artistic traditions of western culture and moved away from its original medical scientific context Originally published in 1991 The Chamber of Maiden Thought Keats's metaphor for the awakening of the thinking principle is an original and revealing exploration of the seminal role of literature in forming the modern psychoanalytic model of the mind The crux of the post Kleinian psychoanalytic view of personality development lies in the internal relations between the self and the mind's objects Meg Harris Williams and Margot Waddell show that these relations have their origins in the drama of identifications which we can see played out metaphorically and figuratively in literature which presents the self creative process in aesthetic terms They argue that psychoanalysis is a true child of literature rather than merely the interpreter or explainer of literature illustrating this with some examples from clinical experience but drawing above all on close scrutiny of the dynamic mental processes presented in the work of Shakespeare Milton the Romantic poets Emily Bronte and George Eliot The Chamber of Maiden Thought will encourage psychoanalytic workers to respond to the influence of literature in exploring symbolic mental processes By bringing psychoanalysis into creative conjunction with the arts it enables practitioners to tap a cultural potential whose insights into the human mind are of immense value **The Brontë Sisters in Other Worlds** S. Qi, J. Padgett, 2014-10-09 Looking at the works of the Brontë sisters through a translingual transnational and transcultural lens this collection is the first book length study of the Brontës as received and reimagined in languages and cultures outside of Europe and the United States *The Art of Personality in Literature and Psychoanalysis* Meg Harris Williams, 2020-07-26 The Art of Personality is a diverse selection of talks and papers on psychoanalysis and literature given by the author over the past ten years They elaborate on the goal expressed by Milton as becoming a true poem that is seeing parallels between the gradual construction of the personality and the construction of a work of art following an internal evolution on the lines of Bion's description of an endoskeletonous personality The works discussed range from classic Greek drama to Dostoevsky Kafka and Patrick White The author's thoughts on our interaction with literature stand alongside those of Adrian Stokes and Richard Wollheim on understanding paintings She brings together a broad knowledge of ancient and modern writings with a deep understanding of the creatively imaginative mind illuminated by post Kleinian psychoanalysis This book will be a source of pleasure and inspiration both to general lovers of literature and to psychoanalytic workers who value the poetic aspects of their patients and their own forms of expression **Enabling and Inspiring** Meg Harris Williams, Maria Rhode, Margaret Rustin, Gianna Williams, 2012-09-30

Martha Harris 1919 1987 was one of the most influential and also one of the most loved psychoanalysts of the generation that trained with Melanie Klein She also worked with Wilfred Bion and wrote many books and papers on psychoanalytic training and child development Her colleague James Gammill cites Mrs Klein as saying She is one of the best people I have ever known for the psychoanalysis of children and she has a mind of her own Harris was responsible for the child psychotherapy training at the Tavistock Clinic from 1960 onwards developing laterally the method founded on infant observation that had been put in place by Esther Bick She established cross clinic work discussion groups a pioneering schools counselling course in collaboration with her husband Roland Harris and individual work with disturbed children in the school environment Her belief that psychoanalytic ideas could and should travel both geographically and across the professions led to her seeding the Tavi Model in many other countries through regular teaching trips in company with her later husband Donald Meltzer Her influence was not as a theorist but as a teacher with an extraordinary capacity to engage processes of introjective learning in both students and readers This tribute by some of those who studied with her is not simply testimony to a remarkable teacher and clinician whose wisdom has been rarely equalled it also offers inspiration to others who may be struggling to find ways of using psychoanalytic ideas imaginatively in a variety of contexts clinical social or scholarly in what can at times appear to be an unreceptive world

Hamlet in Analysis Meg Harris Williams, 2020-02-29

This novel originally entitled *A Trial of Faith* is an exploration of Shakespeare's *Hamlet* in the form of a novel tracing the course of a Kleinian analysis It is an experiment in literary criticism as much as in fiction and was written in collaboration with the psychoanalyst Donald Meltzer who supervised each weekly chapter as it was written from an analyst's perspective The intention was to be faithful to the psychoanalytic process as well as to the aesthetic implications of Shakespeare's play The narrator and analyst is Horatio whom *Hamlet* in the play asks to tell his story the story of an adolescent break down *Hamlet* as a character invites an unusually close form of identification as Hazlitt put it It is we who are *Hamlet* Horatio's countertransference as one who is supposed to suffer all yet suffer nothing places him in a vulnerable and testing situation that tempts him towards breaches of technique The novel like the play in my view is structured around a series of dreams that *Hamlet* recounts to Horatio Meanwhile the underlying preoccupation with playing as reality highlights some intriguing implications of Shakespeare's own mid career struggles as a dramatist concerning the relation between genre analysis and protagonist and analyst playwright The present revised edition of the novel includes a new introduction some minor changes to the text and the insertion of more quotations to mark the source of the emotional conflict Such markers also illustrate the dreamlike and turbulent reading process of writing literary criticism which entails not the deconstruction but as was said of Ophelia the unshaping of language in a way that botches up words to fit the hearer's own thoughts It is for readers to judge whether or not the current botching speaks to their own feelings stirred by Shakespeare's play and helps to make sense of the reactions aroused in we who are *Hamlet*
