The Modern West Emily Ballew Neff, Barry Holstun Lopez, 2006-01-01 A fascinating and novel exploration of the transformative role played by the American West in the development of modernism in the United States Drawing extensively from various disciplines including ethnology geography geology and environmental studies this groundbreaking book addresses shifting concepts of time history and landscape in relation to the work of pioneering American artists during the first half of the 20th century Paintings watercolors and photographs by renowned artists such as Frederic Remington Georgia O'Keeffe Ansel Adams Thomas Hart Benton Dorothea Lange and Jackson Pollock are considered alongside American Indian ledger drawings tempuras and Dineh sandpaintings Taken together these works document the quest to create a specifically American art in the decades prior to World War II The Modern West begins with a captivating meditation on the relationship between human culture and the physical landscape by Barry Lopez who traveled the West in the artists footsteps Emily Ballew Neff then describes the evolving importance of the West for American artists working out a radically new aesthetic response to space and place from artist explorers on the turn of the century frontier to visionaries of a Californian arcadia to desert luminaries who found in its stark topography a natural equivalent to abstraction Beautifully illustrated and handsomely designed this book is essential to anyone interested in the West and the history of modernism in American art

Weirding Landscapes Vesa-Pekka Herva, Aki Hakonen, Roger Norum, Oula Seitsonen, Markus Fjellström, 2025-03-28 This open access book investigates human environment relations in the context of the anthropogenic Arctic Through an archaeological and anthropological study of landscape it wields weirding a creative mode of engagement with the world as a means of coming to terms with the stranger experiential dimensions of a planet populated by diverse non human entities often bearing monstrous characteristics Such entities are exemplified by climate change itself at once human induced and a

force of its own volition that maintains an elusive presence as a co inhabitant of the Anthropocene The book focuses on the landscape of Ritni ohkka a fjell in S pmi Finnish Lapland Ritni ohkka is erstwhile home to a diminutive glacier whose weird anomalous characteristics crowned the fjell until it several years ago melted into history Taking a broadly autoethnographic approach it considers perceptions of and affective experiences in this rough and relatively remote otherworldly environment discussing diverse ways of encountering and relating to the Arctic in the context of scientific fieldwork **The Angle**

Between Two Walls Roger Luckhurst, 1998-01-01 This is the first theoretically informed book on Ballard reading his work not only within the science fiction genre but also connecting it to issues of popular culture and legitimisation postmodernism and the legacy of the avant garde Aiming where necessary to contextualise Ballard s fiction within the science fiction genre Luckhurst s study also travels over many terrains more or less foreign to SF existentialism Surrealism Pop Art psychoanalysis ethnologies of contemporary modernity and the theory of autobiography Women in Eighteenth-Century Scotland Deborah Simonton, 2016-12-05 The eighteenth century looms large in the Scottish imagination It is a century that saw the doubling of the population rapid urbanisation industrial growth the political Union of 1707 the Jacobite Rebellions and the Enlightenment events that were intrinsic to the creation of the modern nation and to putting Scotland on the international map The impact of the era on modern Scotland can be seen in the numerous buildings named after the luminaries of the period Adam Smith David Hume William Robertson the endorsement of Robert Burns as the national poet hero the preservation of the Culloden battlefield as a tourist attraction and the physical geographies of its major towns Yet while it is a century that remains central to modern constructions of national identity it is a period associated with men Until recently the history of women in eighteenth century Scotland with perhaps the honourable exception of Flora McDonald remained unwritten Over the last decade however research on women and gender in Scotland has flourished and we have an increasingly full picture of women s lives at all social levels across the century As a result this is an appropriate moment to reflect on what we know about Scottish women during the eighteenth century to ask how their history affects the traditional narratives of the period and to reflect on the implications for a national history of Scotland and Scottish identity Divided into three sections covering women s intimate intellectual and public lives this interdisciplinary volume offers articles on women s work criminal activity clothing family education writing travel and more Applying tools from history art anthropology cultural studies and English literature it draws on a wide range of sources from the written to the visual to highlight the diversity of women s experiences and to challenge current male centric historiographies **Gropius** Fiona MacCarthy, 2019-04-15 This is an absolute triumph ideas

lives and the dramas of the twentieth century are woven together in a feat of storytelling A masterpiece Edmund de Waal ceramic artist and author of *The White Road* The impact of Walter Gropius can be measured in his buildings Fagus Factory Bauhaus Dessau Pan Am but no less in his students I M Pei Paul Rudolph Anni Albers Philip Johnson Fumihiko Maki countless masters were once disciples at the Bauhaus in Berlin and at Harvard Between 1910 and 1930 Gropius was at the center of

European modernism and avant garde society glamor only to be exiled to the antimodernist United Kingdom during the Nazi years Later under the democratizing influence of American universities Gropius became an advocate of public art and cemented a starring role in twentieth century architecture and design Fiona MacCarthy challenges the image of Gropius as a doctrinaire architectural rationalist bringing out the visionary philosophy and courage that carried him through a politically hostile age Pilloried by Tom Wolfe as inventor of the monolithic high rise Gropius is better remembered as inventor of a form of art education that influenced schools worldwide He viewed argument as intrinsic to creativity Unusually for one in his position Gropius encouraged women s artistic endeavors and sought equal romantic partners Though a traveler in elite circles he objected to the cloistering of beauty as a special privilege for the aesthetically initiated Gropius offers a poignant and personal story and a fascinating reexamination of the urges that drove European and American modernism

Crossing Textual Boundaries in International Children's Literature Lance Weldy, 2011-01-18 As the first part of the title indicates my interest in looking at intertextuality and transformation still maintains a prominent place throughout this book as well If we believe that no text is an island then we will understand that the relationships between and within texts across the years become a fascinating place for academic inquiry I included the word boundaries into the title because we never get tired of voicing our opinions about texts which traverse relegated boundaries such as genre or medium Not only am I interested in discussing what these changes across boundaries mean socially historically and culturally but also what they mean geographically which accounts for the second part of my title I am very excited that this book will be placing even more emphasis on children s literature in an international scene than my first book did in the sense that I have added more scholars on an international level I hesitate to list the nationalities of all of the contributors here because quite a few have themselves crossed international boundaries in different ways by either studying abroad or finding permanent residency in foreign countries Nevertheless the writers have lived extensively in or identify as being from Australia Canada England Finland Germany Greece Iceland Ireland Israel Norway Spain Sweden Turkey the United States of America and Wales
