Strange Synergy:

Strange Synergy Steve Jackson, 2003 **The Poetry of Translation** Matthew Reynolds, 2011-09-29 A very wide ranging book which launches a new theory of poetry translation and pursues it through readings of poem translations from across the history of English literature It engages with the key debates in translation studies and offers new interpretations of major works such as Pope's Iliad Pound's Cathay and Dryden's Aeneid **Cultivating Belief** Sebastian Lecourt, 2018 This book explores how a group of Victorian literary writers including George Eliot Walter Pater and Matthew Arnold became interested in the emerging anthropology of religion which sought to explain religion not in terms of doctrines or beliefs but as a function of race or ethnicity **Tory Nation** Samuel Earle, 2023-05-04 A witty lucid investigation into one of the great mysteries of our time JONATHAN COE Should be read and enjoyed by readers on the left right and centre David Edgerton TIMES LITERARY SUPPLEMENT

Why do British politics so often play out on the Tories terms What does this say about our democracy In his revelatory book Samuel Earle explores the roots of the current crisis and the real reasons for the Conservatives unsettling success from their ruling class origins in the eighteenth century and their disproportionate influence of the British press to their stranglehold over national identity He sheds light on the Conservatives historic appeal among the working classes and why the Labour Party so often disappoints Tory Nation describes the making of Britain through one party's astonishing power over us It's only by reaching into our history Earle argues that we can understand how we got here and how we can find a way out

Written with historical depth and literary flair NEW STATESMAN Earle has set out clearly and eloquently why our democracy is incapable of solving our political problems ROBERT VERKAIK author of *Posh Boys Gipping* and indispensable NESRINE MALIK author of *We Need New Stories* *Henri Lefebvre and the Spanish Urban Experience* Benjamin Fraser, 2011-09-19 An important contribution to the still evolving field of urban cultural studies Henri Lefebvre and the Spanish Urban Experience is the first book to thoroughly apply the French urban philosopher's thoughts on cities to the culture and literature of Spain Fraser shows how Lefebvre's complex view of the city as a mobile phenomenon is relevant to understanding a variety of Spanish cultural products from urban plans and short writings on the urban experience during the nineteenth century by Mariano Jos de Larra Ram n de Mesonero Ramanos and Ildefons Cerd to urban theories cultural practices and literary fiction of the twentieth by Luis Mart n Santos Juan Jos Mill s Juan Goytisolo and Manuel Delgado Ruiz He pushes on to interrogate even the appearance of Mediterranean space and Barcelona in recent video games Working through the direct and indirect resonance of the French philosopher's legacy in Spain a comprehensive first chapter grounds the reader in the key concepts of Lefebvre's urban theory that are explored throughout the book his critiques of static space modern urban planning knowledge alienation in everyday life and his emphasis on a method that underscores the importance of movement and rhythm Fraser compellingly shows how each of these aspects of Lefebvre's

work relates to the others just as he ties together canonical and non traditional cultural products from Madrid and Barcelona

Sit on Our Hands, or Stand on Our Feet? Roger Philip Abbott,2013-01-07 The aim of Sit on Our Hands or Stand on Our Feet is not to present a theology that explains disasters In fact there is no such theology Nor is this work primarily for those who are responded to it is not part of the theological grab bag that Christian responders carry with them to use for the benefit of casualties It is more a part of the Christian s engaged practical theological apprenticeship prior to and during a response This book represents the role of the practical theologian who empowers the church community s legitimation and contribution in disaster response and who encourages individual Christians whose calling into particularly relevant professions whose natural skills and or professional training could find them placed in a major incident responding status paid or voluntary doing their work as unto the Lord It is a serious must read for any Christians who have hearts heavy with compassion but who are not sure what to do or why when disaster strikes

Creative Learning, Teaching, and Assessment for Arts and Humanities Higher Education Glenn Fosbraey,2024-10-31 Higher education should be a place for students to innovate create and expand their horizons and in order to create an environment which allows for all these things tutors need to be able and willing to do the same This practical and informative book explores how a diverse range of tutors working in the Arts and Humanities disciplines have succeeded in thinking creatively about their teaching module design and extra curricular activities without losing sight of necessary academic rigour The book explores experimental learning environments student and lecturer collaborations the development of students employability and transferable skills creative and imaginative assessment design embedding mental wellbeing techniques into curricula The varied roles subjects and locations of the contributors enables rigorous and diverse international exploration of creative pedagogy in higher education and the book will particularly appeal to those looking to bring creativity to higher education

Mastering the Globalization of Business Roger Cartwright,2017-03-14 The book is designed to provide a basic understanding of the dynamics of globalization and its relevance for all types and sizes of business Commencing with a brief history that shows that globalization is not just a late 20th and early 21st century phenomenon but has been a factor in world trade since the 1600s the text then considers the two opposing views held about globalization The material goes on to look at the global implications for customer relationships marketing human resources finance and information These are areas in which a narrow national view is becoming increasingly of less value to the student The book includes questions and case studies to aid understanding

Romantic Encounters Melissa Frazier,2007 Romantic Encounters focuses on literary periodicals of the 1830s to describe the destabilization of readerly and writerly identities which occurs when Romantic irony meets an apparently rising literary marketplace

Food Nations Warren Belasco,Philip Scranton,2014-06-03 This original collection abandons culinary nostalgia and the cataloguing of regional cuisines to examine the role of food and food marketing in constructing culture consumer behavior and national identity
