Stranger In The Family A True Story Of Murder Madness And Unconditional Love:

A Stranger in the Family Steven Naifeh, Gregory White Smith, 1996-05-01 Who would ever connect this handsome charming straight arrow son of a perfect all American family with the gruesome crimes of a serial killer Richard Daniel Starrett was the dangerous visitor for too many unlucky young women in Georgia and South Carolina in the late 1980s Answering for sale ads in the classifieds he was a buyer hunting for victims not bargains and he paid in grim coin rape kidnapping murder Because of his articulate intelligence and prestigious job no one suspected this golden boy of such heinous acts This gripping intimately detailed account by Pulitzer Prize winning authors probes every tortured thought and twisted urge of a boy next door murderer as well as the dynamics of the model family that shaped him The result is both a stunning portrait of a diseased mind and the moving story of a loving family s emotional nightmare and painful disintegration

The Anatomy of Evil Michael H. Stone, The crimes of Charles Manson Ted Bundy Jeffrey Dahmer John Wayne Gacy Dennis Rader and other high profile killers are so breathtakingly awful that most people would not hesitate to label them evil In this groundbreaking book renowned psychiatrist Michael H Stone host of Discovery Channel s former series Most Evil uses this common emotional reaction to horrifying acts as his starting point to explore the concept and reality of evil from a new perspective In an in depth discussion of the personality traits and behavior that constitute evil across a wide spectrum Dr Stone takes a clarifying scientific approach to a topic that for centuries has been inadequately explained by religious doctrines Basing his analysis on the detailed biographies of more than 600 violent criminals Stone has created a 22 level hierarchy of evil behavior which loosely reflects the structure of Dante s Inferno He traces two salient personality traits that run the gamut from those who commit crimes of passion to perpetrators of the worst crimes sadistic torture and murder One trait is narcissism as exhibited in people who are so self centered that they have little or no ability to care about their victims The other is aggression the use of power over another person to inflict humiliation suffering and death Stone then turns to the various factors that singly or intertwined contribute to pushing certain people over the edge into committing heinous crimes They include heredity adverse environments violence prone cultures mental illness or brain injury and abuse of mind altering drugs All are considered in the search for the root causes of evil behavior What do psychology psychiatry and neuroscience tell us about the minds of those whose actions could be described as evil And what will that mean for the rest of us Stone discusses how an increased understanding of the causes of evil will affect the justice system He predicts a day when certain persons can safely be declared salvageable and restored to society and when early signs of violence in children may be corrected before potentially dangerous patterns become entrenched Michael H Stone MD New York NY is professor of clinical psychiatry at the Columbia College of Physicians and Surgeons He is the author of ten books most recently *Personality Disorders Treatable and Untreatable* and over two hundred professional articles and book chapters He is also the host of Discovery Channel s former series Most Evil and has been featured in the New York Times Psychology Today the
