The Ivory Hunters:

The Ivory Hunters Michael Bond, 1992 Ivory's Ghosts John Frederick Walker, 2010-01-19 A tour de force examination of the history of ivory and the demise of the elephant and human decency in the process of this unholy quest The Huffington Post Praised for the nuance and sensitivity with which it approaches one of the most fraught conservation issues we face today John Frederick Walker's *Ivory's Ghosts* tells the astonishing story of the power of ivory through the ages and its impact on elephants Long before gold and gemstones held allure ivory came to be prized in every culture of the world from ancient Egypt to nineteenth century America to modern Japan for its beauty rarity and ability to be finely carved But the beauty came at an unfathomable cost Walker lays bare the ivory trade's cruel connection with the slave trade and the increasing slaughter of elephants in the nineteenth and early twentieth centuries By the 1980s elephant poaching reached levels that threatened the last great herds of the African continent and led to a worldwide ban on the ancient international trade in tusks But the ban has failed to stop poaching or the emotional debate over what to do with the legitimate and growing stockpiles of ivory recovered from elephants that die of natural causes *Ivory's Ghost* is essential reading for anyone concerned with conservation and with the tenuous future of one of the most magnificent creatures our earth has ever seen George B Schaller author of *A Naturalist and Other Beast*

Game Changer Glen Martin, 2012-03-30 Are conservation and protecting animals the same thing In *Game Changer* award winning environmental reporter Glen Martin takes a fresh look at this question as it applies to Africa's megafauna Martin assesses the rising influence of the animal rights movement and finds that the policies championed by animal welfare groups could lead paradoxically to the elimination of the very species including elephants and lions that are the most cherished In his anecdotal and highly engaging style Martin takes readers to the heart of the conflict He revisits the debate between conservationists who believe that people whose lives are directly impacted by the creation of national parks and preserves should be compensated versus those who believe that restrictive protection that forbids hunting is the most effective way to conserve wildlife and habitats Focusing on the different approaches taken by Kenya Tanzania and Namibia Martin vividly shows how the world's last great populations of wildlife have become the hostages in a fight between those who love animals and those who would save them

White Hunters Brian Herne, 2014-04-08 Brian Herne's *White Hunters* The Golden Age of African Safaris is the story of seventy years of African adventure danger and romance East Africa affects our imagination like few other places the sight of a charging rhino goes directly to the heart the limitless landscape of bony highlands desert and mountain is as Isak Dinesen wrote of unequalled nobility *White Hunters* re-creates the legendary big game safaris led by Selous and Bell and the daring ventures of early hunters into unexplored territories and brings to life such romantic figures as Cape to Cairo Grogan who walked 4 000 miles for the love of a woman and Dinesen's dashing lover Denys Finch Witnesses to the richest wildlife spectacle on the earth these hunters were the first conservationists Hard drinking infatuated with risk and careless in love they inspired

Hemingway's stories and movies with Clark Gable and Gregory Peck *Elephant meat trade in Central Africa : Republic of Congo case study* , Maji Maji James Leonard Giblin, Jamie Monson, 2010 This volume reexamines the Maji Maji war of 1905-07 in Tanzania the largest African rebellion against European colonialism Contributors provide histories of previously neglected localities and groups and new insight into the use of protective medicines believed to provide invulnerability
