Social Contract Essays By Locke Hume And Rousseau:

Social Contract, Essays by Locke, Hume and Rousseau Ernest Baker, 2012-12-01 Locke and Rousseau if in different ways and different degrees accepted the idea of the Social Contract Hume more historically minded and more conservative in his convictions was its critic His sceptical intellect led him to approach political theories the theory of divine right as well as the theory of Social Contract but more especially the latter with a touch of acid realism which was mingled with a half ironical suavity There is something he seems to say in your different theories but less much less than you think This book is highly recommended for inclusion on the bookshelf of anyone with an interest in the history of political philosophy **Social**

Darkness George Fabian, 2011-10-25 **The Political Education of Democratus** Brian W. Dotts, 2012-03-15 Thomas Paine described the American Revolution as educative However as examined in Brian W Dotts *The Political Education of Democratus* Negotiating Civic Virtue during the Early Republic what was learned was neither standardized nor uniform The Federalists for example viewed the revolution as a triumph for representative government but one intended to maintain many remnants of the colonial experience Anti Federalists saw a confirmation of representative government at the state and local levels and considered the revolution as authenticating Montesquieu s theories of republicanism A third more extreme interpretation of the revolution emerged from radical democrats who viewed the revolution as a fundamental break with mainstream thinking about republicanism These radicals helped turn conventional understanding of representative government upside down taking part in unconventional or extra constitutional action during their negotiation of citizen virtue

during the 1790s Members of each of the societies took an active part in trying to fulfill their expectations for the new American experiment by contributing to the democratization of republicanism The Political Education of Democratus illuminates the emergence of democratic thought from Aristotle and Machiavelli to more contemporary influences from the British Commonwealth tradition Dotts examines how the radical ideas of Algernon Sidney James Harrington John Milton Joseph Priestley and Thomas Paine develop a rich tapestry among the democratic society s correspondence constitutions resolutions and early media Individual members of the Democratic Republican Societies including Philip Freneau Robert Coram Benjamin Bache George Logan and others energized these radical interpretations of civic republican thought and plunged headlong into party politics educating early Americans about the practical potentialities of democratic action

Mackin,2014-12-20 As James A Mackin Jr shows both modernism and postmodernism have undermined the traditional foundations for ethics Using an ecological model however Community over Chaos develops a common ground for ethical judgments about communication thus countering the current theoretical climate of pessimistic cynicism toward the very possibility of ethics **Human Rights for the 21st Century** Helen Stacy,2009-02-05 Considers the legal moral and pragmatic issues at stake when international standards of human rights are trumped by culture and politics and proposes new approaches to fill the gaps in current human rights theories and practice namely relational sovereignty reciprocal adjudication and regional human rights courts **The Strategy of Nonviolent Defense** Robert J. Burrowes,2015-10-26 Because of the way in which the history of nonviolence has been marginalized relatively few people have a sense of the rich history of nonviolent struggle or realize that it can be systematically planned and applied Nevertheless the historical record illustrates that nonviolent struggle is a powerful form of political action But can it be effective against military aggression The Strategy of Nonviolent Defense answers this question in the affirmative by first defining the notion of social cosmology the four mutually reinforcing features that determine the character of any society It then devotes attention to strategies for dealing with conflict in particular to developing a strategic theory and framework for planning a strategy of nonviolent defense In order to develop this theory Burrowes synthesizes insights drawn from the strategic theory of Carl von Clausewitz the nonviolence of Mahatma Gandhi and recent human needs and conflict theory The Rights of Strangers Georg Cavallar,2017-07-05 This study investigates the thinking of European authors from Vitoria to Kant about political justice the global community and the rights of strangers as one special form of interaction among individuals of divergent societies political communities and cultures Taking an interdisciplinary approach it covers historical material from a predominantly philosophical perspective interpreting authors who have tackled problems related to the rights of strangers under the heading of international hospitality Their analyses of the civitas maxima or the societas humani generis covered the nature of the global commonwealth Their doctrines of natural law ius naturae were supposed to provide what we nowadays call theories of political justice The focus of the work is on international hospitality as part of the law of nations on its scope and justification It follows the political ideas of Francisco de Vitoria and the Second Scholastic in the 16th century of Alberico Gentili Hugo Grotius Samuel Pufendorf Christian Wolff Emer de Vattel Johann Jacob Moser and Immanuel Kant It draws

attention to the international dimension of political thought in Thomas Hobbes John Locke Jean Jacques Rousseau David Hume Adam Smith and others This is predominantly a study in intellectual history which contextualizes ideas but also emphasizes their systematic relevance
