Social Issues In The Provision And Pricing Of Water Services:

Social Issues in the Provision and Pricing of Water Services OECD,2003-07-08 This book explores the interface between environmental and social elements of water pricing policies in OECD countries It focuses on the affordability of water services as well as on the social measures aimed at resolving these affordability problems *Social Issues in the Provision and Pricing of Water Services* Organisation for Economic Co-operation and Development (Paris),2003 **Pricing Water Resources and Water and Sanitation Services** Organisation for Economic Co-Operation and Development (OECD),2010-03-15 Part of OECD Water Policy and Finance Set Buy all four reports and save over 30% on buying separately In both OECD and non OECD countries the water sector is facing the challenges of increased competition for water resources deteriorating water quality and the effects of climate change and poor management In this context how can countries ensure access to adequate sustainable and affordable water and sanitation services for all Pricing water related services is an essential part of the answer This report compiles reliable and comparable data on pricing water and on water supply and sanitation services across OECD countries It sheds additional light on such policy issues as the choice of tariff structures for water services cost recovery for water services and affordability Further reading Sustainable Management of Water Resources in Agriculture 2010 Managing Water for All 2009 Private Sector Participation in Water Infrastructure OECD Checklist for Public Action 2009 Social Issues in the Provision and Pricing of Water Services 2003 The Price of Water Trends in OECD Countries 1999 Visit http://www.iwawaterwiki.org/xwiki/bin/view/Articles/UsefulResourcesforDevelopingCountries_0 to access the OECD area on the IWA WaterWiki **OECD Studies on Water Improving Domestic Financial Support Mechanisms in Moldova's Water and Sanitation Sector** OECD,2017-10-23 The water supply and sanitation WSS sector in Moldova is not financially sustainable tariffs do not typically cover operational costs and capital investments are heavily funded by external development partners *OECD Studies on Water Pricing Water Resources and Water and Sanitation Services* OECD,2010-03-15 This report compiles reliable and comparable data on pricing water and on water supply and sanitation services across OECD countries [Critical Issues in Environmental Taxation](#) Claudia Dias Soares,Janet Milne,Hop Ashiabor,Kurt Deketelaere,Larry Kreiser,2010-10-07 Critical Issues in Environmental Taxation is an internationally refereed publication devoted to environmental taxation issues on a worldwide basis It seeks to provide insights and analysis for achieving environmental goals through tax policy By sharing the perspectives of the authors in response to the diverse challenges posed by environmental taxation issues effective approaches used in one country may be considered and possibly implemented by governmental authorities in other countries Each volume contains pioneering and thought provoking articles contributed by the world's leading environmental tax scholars This eight volume includes 42 articles on environmental tax issues which were presented at the Tenth Global Conference on Environmental Taxation It features articles in six areas relating to environmental tax reforms experiences and potential market based instruments for

climate protection market based instruments for environmentally sound management of energy market based instruments for environmentally sound management of water market based instruments for environmentally sound management of urban areas and evaluation of market based environmental policies The quality of the articles published in Volume VIII reflects the excellent and inspiring work of leading scholars and practitioners in the field of environmental taxation **Water**

Consumption, Tariffs and Regulation Francesc Hernandez-Sancho, Maria Molinos-Senante, 2018-05-15 *Water Consumption Tariffs and Regulation* aims to provide a statistical overview about water abstraction consumption tariffs and data on sewage and wastewater treatment at an international level It is mainly based on the statistical information provided by IWA Specialist Group on Statistics and Economics The book is structured in three main parts Part I presents tables and figures relative to water consumption and sanitation status and focuses on water abstraction water delivered water consumption and the evolution of sewer connection and wastewater treatment Part II focuses on the analysis of water tariffs by investigating the structure of water tariffs by analysing the importance of the variable and fixed charge It presents drinking water tariffs and illustrates the relationship between tariffs and GDP and also the size of the cities Finally charges in wastewater are dealt with country by country Part III analyses the main aspects relative to water regulation and describes the importance of private operators in the management of the water cycle Information relative to the principles used to fix drinking water prices is presented with an assessment of access to public water services *OECD Environmental Strategy 2004 Review of Progress* OECD, 2004-04-20 This report assesses the progress that OECD countries have made in

implementing objectives set out in an Environmentl Strategy adopted in 2001 as well as in applying the 71 national actions they agreed as part of that Strategy **Water Policy and Management in Spain** Francisco González-Gómez, Miguel A. García-Rubio, Jorge Guardiola, 2016-04-08 Spain is facing an increasingly difficult situation in terms of water stress This is an issue that is due mostly to poor management practices in all sectors Large amounts of water have been used for agricultural purposes at very low prices for too long there is an uncontrolled use of most aquifers in rural areas which result from ineffective control by the public administration per capita consumption continues increasing as well as water used for industrial and energy generation the construction and tourism sectors and for recreation activities In fact they have all exerted additional pressure on available water resources In order to face the above challenges water policy has made a gradual shift towards more rational and sustainable management of water resources This has also been influenced by the European Water Framework Directive about which as the book discusses there are both myths and misunderstandings This book analyses the very complex position of all sectors in the country the alternatives available and the challenges ahead In so doing it makes an important contribution to the literature on water resources management This book was published as a special issue of the *International Journal of Water Resources Development* **Facing the Challenges of Water**

Governance Simon Porcher, Stéphane Saussier, 2018-11-19 Access to water is one of the most pressing global issues of the

twenty first century particularly when set against the background of a rapidly growing global population This book provides a cutting edge comprehensive overview of the challenges facing water governance and regulatory choices The recently adopted Sustainable Development Goals set forward an ambitious agenda of providing universal access to good quality water supply and sanitation services within a financially constrained environment however the various peculiarities of each country regarding water governance makes it difficult to identify and implement the best practices and benchmarks Drawing together empirical studies from countries around the world the editors and contributors combine extensive data to review the individual challenges facing each country from the supervision of autonomous regulatory bodies to the question of centralization and the influence of local utility companies This pioneering and practical volume will be of interest and value not only to students and scholars of water governance but also to practitioners and regulators
