Social Problems The Quality Of Life 10th Ed:

Investigating Social Problems A. Javier Trevino, 2020-11-03 For the Third Edition of Investigating Social Problems editor A. Javier Trevino has gathered a panel of top experts to thoroughly examine all aspects of social problems providing students with a contemporary and authoritative introduction to the field. Each chapter is written by a well-known specialist on the topic being covered. This unique contributed format ensures that the research and examples described are the most current and relevant available. In addition, the experts use both general theoretical approaches (structural functionalism, conflict theory, symbolic interactionism) as well as specialized theories chosen to bring additional insight and analysis to their assigned topics. The text is framed around three major themes: intersectionality, the interplay of race, ethnicity, class, and gender; the global scope of many problems; and how researchers take an evidence-based approach to studying problems. This title is accompanied by a complete teaching and learning package.

The Problems of Living in Society Henry H. Brownstein, 2003 This text adds a human face to social problems by looking at them from the perspective of the individual and the problems we face in everyday life as members of society. Stories from the news media and popular fiction demonstrate problematic areas of social life such as forming intimate relationships, finding a job, and living with serious illness. The book is useful as a supplemental text in an introductory course on sociology, social institutions, or social relationships. Annotation c 2003 Book News, Inc., Portland, OR, booknews.com

The Handbook of Policy Practice Ira C. Colby, 2018-01-29 The Handbook for Policy Practice is a hands-on practice textbook that explores ways to influence social policy in an agency setting or through formal governmental processes. The text offers a common-sense approach to issue analysis with added attention to the concept of social justice and necessary critical thinking skills.
