Social Psychology A Sociological Approach Through Interpretive Understanding:

Social Psychology Andrew J. Weigert, 1983 **Narrative and Discursive Approaches in Entrepreneurship** Chris Steyaert, 2005-01-01 the four books comprising the series would certainly be a valuable addition to any entrepreneurship library However each book also stands alone as an individual purchase Lorraine Warren International Journal of Entrepreneurial Behaviour and Research The book delivers what it promises a map of the uses of narrative methods in entrepreneurship studies It is both an interesting contribution to the field and an important methodological handbook for all entrepreneurship researchers who are thinking of adopting qualitative methods in their inquiries However it may also be read with advantage by other researchers using ethnography as their main methodological approach to social studies The aim of the book is to show how narratives can enrich entrepreneurship studies a goal that in my opinion is aptly fulfilled Monika Kostera Scandinavian Journal of Management the contributors in this text breathe fresh and imaginative linguistic resources and narrative discursive frames of reference into the inquiry of entrepreneurial activities The anecdote the narrative the metaphorical the discursive and the dramaturgical are significant therefore not only because they bring to the surface voices emotions processes and the relationality of everyday entrepreneurial activity that have possibly been previously silenced But also to paraphrase Steyaert these approaches highlight the controversial and interactive aspects of the research process The text is welcome because it treats narrative in a serious and scholarly way Denise Fletcher International Small Business Journal In their edited book Narrative and Discursive Approaches in Entrepreneurship Daniel Hjorth and Chris Steyaert provide a fascinating glimpse into a perspective on entrepreneurship that will be enlightening for many readers Entrepreneurship authors typically talk about theory methods and data as if a straight forward linear process united them all and making sense of entrepreneurship was simply a matter of knowing how to interpret one's findings By contrast the authors in this volume propose narrative and discursive approaches in which the contributing authors emphasize rich description reflexive conceptualization and interpretations offered as part of the story itself They draw upon an international set of cases including Russia Sweden Denmark Norway Venezuela and North America The cases themselves make for fascinating reading quite apart from what we learn about the difficulties of imposing a particular interpretation on a given story For example taxi drivers in Caracas management consultants in Denmark and women entrepreneurs in northern Norway all make for fascinating narratives from which to understand the entrepreneurial process Unlike many edited books which have no plot the editors have included opening and closing sections that link the chapters offer alternative readings of them and propose new and expansive ways of thinking about entrepreneurship Howard Aldrich University of North Carolina at Chapel Hill US Daniel Hjorth and Chris Steyaert set out to advance the study of entrepreneurship by refocusing the lens of discovery from economics management and marketing to other paradigmatic stances in social sciences and humanities like anthropology and literary studies The result is a provocative collection of chapters that inspire the reader to consider and

explore new ideas and research practice that incorporate both the context and place of entrepreneurship From the perceptive insights of the editors to the rigorous and provocative discourse of the chapters and thoughtful responses in the conclusion emerges a story in the best of storytelling tradition about how a linguistic turn can rouse new insights The editors ask how do these texts move you they entice provoke challenge stimulate and guide Their implications should be far reaching and required reading for any student of t

Social Identifications Dominic Abrams, Michael A. Hogg, 2006-06-07 The authors of *Social Identifications* set out to make accessible to students of social psychology the social identity approach developed by Henri Tajfel John Turner and their colleagues in Bristol during the 1970s and 1980s Michael Hogg and Dominic Abrams give a comprehensive and readable account of social identity theory as well as setting it in the context of other approaches and perspectives in the psychology of intergroup relations They look at the way people derive their identity from the social groups to which they belong and the consequences for their feelings thoughts and behaviour of psychologically belonging to a group They go on to examine the relationship between the individual and society in the context of a discussion of discrimination stereotyping and intergroup relations conformity and social influence cohesiveness and intragroup solidarity language and ethnic group relations and collective behaviour *Social Identifications* fills a gap in the literature available to students of social psychology The authors presentation of social identity theory in a complete and integrated form and the extensive references and suggestions for further reading they provide will make this an essential source book for social psychologists and other social scientists looking at group behaviour

Perspectives on Social Psychology Clyde Hendrick, 2015-06-19 Originally published in 1977 this volume was intended to provide a relatively elementary and clear overview of some of the more important approaches to social psychology at the time There are a number of perspectives on this discipline but here instead of traditional theoretical approaches e g field theory role theory or S R the point of view is from the general perspective The first chapter approaches social psychology as an experimental science with the history and philosophic traditions discussed as well as the current state of the field Other chapters approach the discipline from the perspectives of symbolic interaction social development and ethology The final chapter is devoted to the uses of mathematical models in social psychology This volume was intended to serve as a helpful integration of the field and will still be useful as a text in its historical context

Structure and Agency in Everyday Life Gil Richard Musolf, 2003 *Structure and Agency in Everyday Life* outlines the major concepts of interactionism through its leading theoreticians from William James to Erving Goffman to contemporary writers The text underscores the dynamic relationship between the structures or social forces of constraint and humans ability to act self reflexively and constitute meaning in their lives through everyday action The major foci of interactionism emotions deviance childhood socialization gender the negotiated order and the self are covered in depth The text presents a history of the interactionist perspective
