Social Work Portfolio:

The Social Work Portfolio: a Student's Guide to Evidencing Your Practice Lee-Ann Fenge, Kate Howe, Mel Hughes, Gill Thomas, 2014-04-16 Creating a practice portfolio is a challenging but essential part of every social work student's placement experience. This book shows students how to get the best results from their practice portfolio by demonstrating their learning and evidencing areas of practice such as meeting the National Occupational Standards, reflective practice, and the involvement of service users and carers in their practice. Packed with practical tips, case studies, action points, activities, and diagrams, the book is an indispensable guide for social work students on placement.

Digital Portfolio Construction Dale Fitch, Mary Ruffolo, Michael J. Austin, 2021-06-25 Digital Portfolio Construction: A Guide for Showcasing Social Work Skills guides students through the process of compiling a digital portfolio, a collection of artifacts that demonstrates the knowledge, skills, and competencies they have mastered and articulates all they have learned throughout their social work program. The first part of the text focuses on constructing a digital portfolio, which includes the processes of gathering, selecting, reflecting, and sharing assignments and artifacts. In the later chapters, readers gain a greater understanding of the connection between what they learn within their courses and the social work competencies that are the hallmark of the profession. Recognizing that the construction and presentation of a digital portfolio requires active engagement and collaboration between students, faculty, and administration, two valuable appendices provide teaching suggestions for social work instructors and describe the programmatic and administrative contexts necessary to support the successful compilation of a digital portfolio and its use as a program outcome measure. Developed to help future practitioners increase their competence and confidence in presenting their knowledge and skills, Digital Portfolio Construction is a guide that can be integrated within social work curriculum and programs or leveraged as a tool for independent study.

Watch author Dale K. Fitch introduce Digital Portfolio Construction and speak to how the text can help students recognize and reflect upon the competencies they acquire as they progress through their social work program.

Watch Samantha Brown, M.S.W., speak to the importance of social work portfolios and how building a portfolio has been instrumental in her job search and professional networking.

The Social Work Portfolio Barry Cournoyer, Mary Stanley, 2002 In THE SOCIAL WORK PORTFOLIO, the authors emphasize that learning how to learn and continuing to learn are fundamental processes for professional social workers in the twenty-first century. The text provides students with a tool to plan, assess, and document the nature, scope, and quality of learning during and following formal university study. The book is intended to help students to develop their own social work portfolio.

The Social Work Portfolio: A Student's Guide To Evidencing Your Practice Fenge, Lee-Ann, Howe, Kate, Hughes, Mel, 2014-04-01 This book guides students through creating their portfolio using practical tips, case studies, action points, and activities.
