Socially Critical View Of The Self Managing School:

A Socially Critical View Of The Self-Managing School John Smyth, 2005-09-21 The shift from the model of central government educational control to school based management has been widely adopted and acclaimed and has created the general impression of increased democracy and participation The international contributors to this book tackle this important policy issue and look behind the scenes of the moves towards school self management They investigate the phenomenon of the self managing school Why It Is Happening Now What Is The Truth Behind This Notion And The problems which lie behind devolution and self management The self managing school it is claimed is not about grassroots democracy or parent participation but absolutely the reverse and this contradiction is best understood in terms of the ideology of the New Right Enlightened and informed perspectives of the reality behind school self management suggest that the devolution of power is only superficial Hierarchies continue to exist as unequally funded schools which perpetuate class gender and ethnic divisions The mechanism involved promotes the Survival Of The Fittest Through Notions Of Choice For Those Involved in school management and education generally this book should provide a useful insight into the struggle surrounding the control of schooling

The Socially Just School John Smyth, Barry Down, Peter McInerney, 2014-07-08 This book explores schools and how they can function as social institutions that advance the interests and life chances of all young people especially those who are already the most marginalized and at an educational disadvantage Social justice is a key theme as the book examines the needs of youth the concept of school culture school community relations socially critical pedagogy curriculum and leadership and a socially critical approach to work The Socially Just School is based upon four decades of intensive writing and researching of young lives This work presents an alternative to the damaging school reform in which schools are made to serve the interests of the economy education systems the military corporate or national interests Readers will discover the hallmarks of socially just schools They educationally engage young people regardless of class race family or neighbourhood location and they engage them around their own educational aspirations They regard all young people as being morally entitled to a rewarding and satisfying experience of school not only those whose backgrounds happen to fit with the values of schools They treat young people as having strengths and being at promise rather than being at risk and with deficits or as bundles of pathologies to be remedied or fixed They are active listeners to the lives and cultures of their students and communities and they construct learning experiences that are embedded in young lives This highly readable book will appeal to students and scholars in education and sociology as well as to teachers and school administrators with an interest in social justice
