**Islam and World History** Edmund Burke, Robert J. Mankin, 2018-11-05 Published in 1974 Marshall Hodgson's *The Venture of Islam* was a watershed moment in the study of Islam. By locating the history of Islamic societies in a global perspective, Hodgson challenged the orientalist paradigms that had stunted the development of Islamic studies and provided an alternative approach to world history. Edited by Edmund Burke III and Robert Mankin, *Islam and World History* explores the complexity of Hodgson's thought, the daring of his ideas, and the global context of his world historical insights. In our post 9/11 world, Hodgson's historical vision and moral engagement have never been more relevant. A towering achievement, *Islam and World History* will prove to be the definitive statement on Hodgson's relevance in the twenty-first century and will introduce his influential work to a new generation of readers.

*Merchants And Faith* Patricia A. Risso, 2018-02-28 This book, with its felicitous title, brings together with great skill and sensitivity a large amount of current historical scholarship on the trade and civilization of the Indian Ocean during the Islamic centuries. It will be welcomed by both students and teachers as a fine introduction to a complex subject.

*Ottoman Explorations of the Nile* Robert Dankoff, Nuran Tezcan, Michael D. Sheridan, 2018-02-15 Before the time of Napoleon, the most ambitious effort to explore and map the Nile was undertaken by the Ottomans, as attested by two monumental documents: an elaborate map with 475 rubrics and a lengthy travel account. Both were achieved at about the same time, c. 1685, and both by the same man, Evliya Çelebi's account of his Nile journeys in the tenth volume of his *Book of Travels*. *Seyahatname* has been known to the scholarly world since 1938, when that volume was first published. The map held in the Vatican Library has been studied since at least 1949. Numerous new critical editions of both the map and the text have been published over the years, each expounding upon the last in an attempt to reach a definitive version. *The Ottoman Explorations of the Nile* provides a more accurate translation of the original travel account. Furthermore, the maps themselves are reproduced in greater detail and vivid color, and there are more cross-references to the text than in any previous edition. This volume gives equal weight and attention to the two parts that make up this extraordinary historical document, allowing readers to study the map or the text independently while also using each to elucidate and accentuate the details of the other.
