## **Sociology Today Volume 1 Problems Prospect:**

Social Stratification: Volume 1, Sociological Studies J. A. Jackson, 1968-11-02 All the papers in the first volume of Sociological Studies are centred round the theme of social stratification      **Methodological Individualism** Lars Udehn, 2002-11-01 Throughout the history of social thought there has been a constant battle over the true nature of society and the best way to understand and explain it This volume covers the development of methodological individualism including the individualist theory of society from Greek antiquity to modern social science It is a comprehensive and systematic treatment of methodological individualism in all its manifestations      *The Limits of Public Choice* Lars Udehn, 2002-09-11 Public choice has been one of the most important developments in the social sciences in the last twenty years However there are many people who are frustrated by the uncritical importing of ideas from economics into political science Public Choice uses both empirical evidence and theoretical analysis to argue that the economic theory of politics is limited in scope and fertility In order to arrive at a more comprehensive understanding of political life political scientists must learn from both economists and sociologists      **Repression and Mobilization** Christian Davenport, Hank Johnston, Carol McClurg Mueller, 2005-01-01 It was the summer of 2001 when political scientists and sociologists gathered at the University of Virginia to present new information and assess the status of study about political mobilization and political repression The 10 papers presented and printed here focus on interactions between protesters and police case studies come from Germany the

**Symposium on the Family (JCR Vol. 04 No. 02)** R. J. Rushdoony, In terms of the daily lives of the world's population no institution is more central than the family The society which sees the demise of the family does not survive      Is Rational Choice Theory All of Social Science? Mark I. Lichbach, 2009-12-11 A timely examination of the current paradigm wars in political science      *Leisure and the Family Life Cycle* Rhona Rapoport, Robert N. Rapoport, 2019-04-25 This volume first published in 1975 with a new introduction by Ziona Strelitz marked a pioneering contribution to family and leisure studies The study includes empirical material collected in the form of biographical case studies The case studies are not only rich in detail and well presented but they provide a meaning of leisure within the pattern of life of the individuals studied This book will be of great interest to students of leisure and family studies      **Philippine Sociological Review**, 1970      **Media of Reason** Matthias Vogel, 2012-11-06 Matthias Vogel challenges the belief dominant in contemporary philosophy that reason is determined solely by our discursive linguistic abilities as communicative beings In his view the medium of language is not the only force of reason Music art and other nonlinguistic forms of communication and understanding are also significant Introducing an expansive theory of mind that accounts for highly sophisticated penetrative media Vogel advances a novel conception of rationality while freeing philosophy from its exclusive attachment to linguistics Vogel's media of reason treats all kinds of understanding and thought propositional and nonpropositional as important to the processes and production of knowledge and thinking By developing an account of rationality grounded in a new conception of media he raises the profile

of the prelinguistic and nonlinguistic dimensions of rationality and advances the Enlightenment project buffering it against the postmodern critique that the movement fails to appreciate aesthetic experience Guided by the work of Jürgen Habermas, Donald Davidson and a range of media theorists including Marshall McLuhan, Vogel rebuilds if he does not remake the relationship among various forms of media: books, movies, newspapers, the Internet and television while offering an original and exciting contribution to media theory

**Brother, Can You Spare a Billion?** Daniel McDowell, 2017 *Brother Can You Spare a Billion* explores how and why the U.S. has regularly acted often alongside the IMF as an international lender of last resort by selectively bailing out foreign economies in crisis. Daniel McDowell highlights the unique role that the U.S. has played in stabilizing the world economy from the 1960s through 2008

**CHALLENGES AND PROSPECTS IN AFRICAN EDUCATION SYSTEMS** SOJI ONI (Ph.D.), 2013 *Challenges and Prospects in African Education System* The general idea this book is trying to disseminate is to inform readers about the compelling challenges and prospects in African system of education. As we all know, when issues of Africa's educational system are raised, the first set of thoughts that come to mind is decline in standard, deterioration of facilities, examination malpractices, cult crises or school-based violence, shortage of teachers, underqualified teachers and poor teachers' performance, which results in poor learning standards, lack of classroom discipline that is exacerbated by insufficient resources and inadequate infrastructure, failure of appropriate inspection and monitoring and confusion caused by changing curricula without proper communication and training. All these have led to massive demoralization and disillusionment among teachers and a negative and worsening perception of African system of education. This therefore calls for in-depth analysis aimed at tutoring every stakeholder in education on how their action and inactions have individually and collectively contributed to the collapsing state of education in Africa. However, the prospect is that Africa's recovery and sustainable development can only be guaranteed through expansion and sustenance of both quantitative and qualitative of the continent's stock of human capital through education. In order for education to realize its key role in development, it must be provided to the younger segments of African society as quickly as human and financial resources permit, with the ultimate goal of developing a comprehensive, meaningful and sustainable system of education at all levels and for all age groups. This is the message that this book puts across in the six knitted sections

Youth Employment: Problems and Prospects Javeed Ahmad, 2018-08-18 The present work reflects upon the employment issues of the youth, one of the most crucial problems of contemporary times. In this backdrop, the present work explores the issues of youth employment based on the empirical evidences from the state of Jammu and Kashmir in North India. The viable approach to

**Translations on International Communist Developments**, 1966 *Civil Liberties, National Security and Prospects for Consensus* Esther D. Reed, Michael Dumper, 2012-03-01 The idea of security has recently seen a surge of interest from political philosophers After the atrocities of 11 September 2001 and 7 July 2005 many leading politicians justified encroachments on international legal standards and civil liberties in the name of security and with a view to protecting the rights of the people Suggestions were made on both sides of the Atlantic to the effect that the extremism of terrorism required the security of the many to be weighed against the liberties of other citizens In this collection of essays Jeremy Waldron Conor Gearty Tariq Modood David Novak Abdelwahab El Affendi and others debate how to move beyond the false dichotomy whereby fundamental human rights and international standards are conceived as something to be balanced against security They also examine the claim that this aim might better be advanced by the inclusion in public debate of explicitly religious voices

*Small-Language Fates and Prospects* Nancy Dorian, 2014-05-22 In *Small language Fates and Prospects* Nancy C Dorian gathers findings from decades of documenting an endangered Scottish Gaelic dialect presenting detailed evidence of

contraction and loss but also recording a positive role for imperfect speakers Retention of language skills undervalued by linguists but positively viewed by the community has supported the survival of local Gaelic English bilingualism well beyond early predictions Nonetheless potent factors that threaten small language survival everywhere have also operated here Negative social attitudes towards the minority population loss of a traditional occupation the increasing impact of majority culture ideologies are recurrent phenomena in small language settings Maintenance or revitalization efforts pose special challenges under these circumstances as does fieldwork itself when adverse sociohistorical forces have left very few fluent speakers
