**The British National Bibliography** Arthur James Wells,2003      The Publishers' Trade List Annual ,1979      **The Jihadi Next Door** Kimberly Mehlman-Orozco,2019-01-15 The recruitment of ISIS terrorists may have begun as an extremist crusade in Iraq but it has quickly become a global phenomenon that is taking hold of people from diverse backgrounds cultures and belief systems The iconic image of a terrorist as an old angry middle eastern man is long gone It has since been replaced by young men and women of all races and religious upbringings in tactical gear and ski masks carrying heavy artillery From the outside looking into the Islamic State most people see these men and women as nothing more than evil terrorists with a psychotic penchant for violence Internally they perceive themselves as freedom fighters or mujahedeen who violate the laws of men to protect their community according to the will of Allah Ultimately neither of these perceptions are based in reality While some experts claim that terrorist recruitment is completely random criminologist Kimberly Mehlman Orozco has identified clear patterns which can be used to explain how regular people are being conscripted into terrorism Using interviews with convicted terrorists in depth research and analysis of extremist propaganda and case specific details Dr Mehlman Orozco provides nuanced theories into the methods of terrorist recruitment methods which can be used to identify persons at high risk of being targeted The Jihadi Next Door provides unprecedented information that can be used to actually combat terrorism By laying bare the tactics used by ISIS to deceive and exploit new recruits and exposing the veneer these extremists operate under Dr Mehlman Orozco hopes to empower readers with the knowledge needed to prevent future recruitment and thereby preventing acts of terrorism      **Footnotes** ,1986      **Linguistics Out of the Closet** Tyler Everett Kibbey,2023-11-06 Queer linguistics in its position as both a linguistic science of and for queer folk is inherently agitating to the disciplinary anxiety of a general linguistic science It represents as all queer science does a disruption of the normative modes of knowledge production and a displacement of academic authority This collection reconsiders the placement of the

queer subject both as the researcher and as the researched within and beyond the discipline and provides an intellectual space for the interdisciplinary and sometimes anti disciplinary linguistic science of gender and sexuality In three sections it respectively considers the development of hyper speciated queer linguistic subfields the interdisciplinarity of intersectional approaches to queer language and the institution of queer linguistic science both within and beyond the academy Taken together the essays in this collection confront the scientific and institutional discipline of linguistics from a queer vantage point one which is perhaps inherently interdisciplinary in its formulation

*Data Protection and Privacy, Volume 14* Dara Hallinan, Ronald Leenes, Paul De Hert, 2021-12-16 This book brings together papers that offer conceptual analyses highlight issues propose solutions and discuss practices regarding privacy data protection and enforcing rights in a changing world It is one of the results of the 14th annual International Conference on Computers Privacy and Data Protection CPDP which took place online in January 2021 The pandemic has produced deep and ongoing changes in how when why and the media through which we interact Many of these changes correspond to new approaches in the collection and use of our data new in terms of scale form and purpose This raises difficult questions as to which rights we have and should have in relation to such novel forms of data processing the degree to which these rights should be balanced against other poignant social interests and how these rights should be enforced in light of the fluidity and uncertainty of circumstances The book covers a range of topics such as digital sovereignty art and algorithmic accountability multistakeholderism in the Brazilian General Data Protection law expectations of privacy and the European Court of Human Rights the function of explanations DPIAs and smart cities and of course EU data protection law and the pandemic including chapters on scientific research and on the EU Digital COVID Certificate framework This interdisciplinary book has been written at a time when the scale and impact of data processing on society on individuals as well as on social systems is becoming ever starker It discusses open issues as well as daring and prospective approaches and is an insightful resource for readers with an interest in computers privacy and data protection
