Prophecies Frederick Nolan,1837 **The Book of Enlightened Masters** Andrew Rawlinson,1997 This is the definitive and
complete book about a phenomenon which did not exist a hundred years ago but is now growing rapidly and dramatically
changing Western culture the rise of Western mostly American teachers who fill the role of guru or master A few books have
appeared on some narrow aspects of this astounding phenomenon this is the first book to survey the entire field Encyclopedic
in its scope The Book of Enlightened Masters includes biographical essays on 140 spiritual teachers giving their life stories
and an account of their teachings Yet it is also a user friendly introduction with a survey of the teachers and their teachings a
historical narrative of how and when the movement developed and an evaluation of the issues raised by it A century ago
there were no Western masters no Westerners who were for instance Hindu swamis Zen roshis or Sufi sheikhs Now there are
many such teachers with millions of followers Starting from scratch the West has produced its own spiritual teachers in
traditions that until recently were utterly alien And in the last quarter century a number of independent teachers have

appeared who belong to no single identifiable tradition The Western masters have not merely transplanted the Eastern spiritual traditions to the West they have transformed these traditions by their distinctively Western approach innovative entrepreneurial and combining elements from previously unconnected Eastern traditions The new teachers are changing Western culture by making available a view of the human condition which is new in the West but very attractive to large and growing numbers of Westerners an approach Dr Rawlinson callsspiritual psychology Spiritual psychology holds that human beings are best understood in terms of consciousness and its modifications that consciousness can be changed by spiritual practice and that there are enlightened masters who have done this and can teach others **Messianism and**

Sociopolitical Revolution in Medieval Islam Said Amir Arjomand,2025-10-28 This study of messianism and revolution examines an extremely rich though unexplored historical record on the rise of Islam and its sociopolitical revolutions from Muhammad s constitutive revolution in Arabia to the Abbasid revolution in the East and the Fatimid and Almohad revolutions in North Africa and the Maghreb Bringing the revolutions together in a comprehensive framework Sa d Amir Arjomand uses sociological theory as well as the critical tools of modern historiography to argue that a volatile but recurring combination of apocalyptic motivation and revolutionary action was a driving force of historical change time and again In addition to tracing these threads throughout 500 years of history Arjomand also establishes how messianic beliefs were rooted in the earlier Judaic and Manichaeian notions of apocalyptic transformation of the world By bringing to light these linkages and factors not found in the dominant sources this text offers a sweeping account of the long arc of Islamic history *By Noon Prayer*
