*Library of Congress Subject Headings* Library of Congress,1993      **Sing and Sing On** Kay Kaufman Shelemay,2022-01-11 A sweeping history of Ethiopian musicians during and following the 1974 Ethiopian revolution Sing and Sing On is the first study of the forced migration of musicians out of the Horn of Africa dating from the 1974 Ethiopian revolution a political event that overthrew one of the world s oldest monarchies and installed a brutal military regime Musicians were among the first to depart the region their lives shattered by revolutionary violence curfews and civil war Reconstructing the memories of forced migration Sing and Sing On traces the challenges musicians faced amidst revolutionary violence and the critical role they played in building communities abroad Drawing on the recollections of dozens of musicians Sing and Sing On details personal cultural and economic hardships experienced by musicians who have resettled in new locales abroad Kay Kaufman Shelemay highlights their many artistic and social initiatives and the ways they

have offered inspiration and leadership within and beyond a rapidly growing Ethiopian American diaspora While musicians held this role as sentinels in Ethiopian culture long before the revolution began it has taken on new meanings and contours in the Ethiopian diaspora The book details the ongoing creativity of these musicians while exploring the attraction of return to their Ethiopian homeland over the course of decades abroad Ultimately Shelemay shows that musicians are uniquely positioned to serve this sentinel role as both guardians and challengers of cultural heritage Groovin' High Alyn Shipton,1999 Dizzy Gillespie was one of the most important and best loved musicians in jazz history With his dark glasses goatee jive talk and upraised trumpet bell he was the hipster who most personified bebop The musical heir to Louis Armstrong he created the basic jazz trumpet playing style and dazzled aficionados and popular audiences alike for over 50 years In this first full biography Alyn Shipton covers all aspects of Dizzy's remarkable life and career taking us through his days as a flashy trumpet player in the swing bands of the 1930s his innovative bebop work in the 1940s the worldwide fame and adoration he earned through his big band tours in the 1950s and the many recordings and performances which defined a career that extended into the early 1990s Along the way Shipton convincingly argues that Gillespie rather than Charlie Parker as is widely believed had the greatest role in creating bebop playing in key jazz groups teaching the music to others and helping to develop the first original bebop repertory Shipton traces the Gillespie Parker relationship starting in the bands of Earl Hines and Billy Eckstine in the early 1940s to their famous 1944 46 group that set the form for bebop and culminating in their extraordinary concert at Massey Hall in Toronto in 1953 Shipton also explores the dark side of Dizzy's mostly sunny personal life his womanizing the illegitimate daughter he fathered and supported now a respected jazz singer in her own right and his sometimes needless cruelty to others For anyone interested in jazz and one of its most innovative and appealing figures Groovin' High is essential reading

**Robotic Musicianship** Gil Weinberg, Mason Bretan, Guy Hoffman, Scott Driscoll, 2020-02-07 This book discusses the principles, methodologies, and challenges of robotic musicianship through an in-depth review of the work conducted at the Georgia Tech Center for Music Technology (GTCMT) where the concept was first developed. Robotic musicianship is a relatively new research field that focuses on the design and development of intelligent music-making machines. The motivation behind the field is to develop robots that not only generate music but also collaborate with humans by listening and responding in an expressive and creative manner. This combination of human and machine creativity has the potential to surprise and inspire us to play, listen, compose, and think about music in new ways. The book provides an in-depth view of the robotic platforms designed at the GTCMT Robotic Musicianship Group, including the improvisational robotic percussionists Haile and Shimon, the personal robotic companion Shimi, and a number of wearable robots such as the Robotic Drumming Prosthesis, The Third Drumming Arm, and the Skywalker Piano Hand. The book discusses numerous research studies based on these platforms in the context of five main principles: Listen like a Human, Play Like a Machine, Be Social, Watch and Learn, and Wear It. *Music for Multi-Percussion: A World View* James Campbell, Julie Hill, *Music for Multi-Percussion: A World View* is designed as a progression of complex skills required to play multi-percussion. Ten percussion solos and two duets are presented with the intention of being performed in recitals, auditions, studio classes, and contests. The collection of solos and duets is organized into four categories which focus on specific skill sets: Category 1: Single instruments or instrument set; Category 2: Changing implements on a single instrument or instrument set; Category 3: Multiple instruments and implements; Category 4: Three and four-way coordination.
